

LANE OB/GYN
GYNECOLOGY

Our Services

Preventative Health

Our clinic helps women maintain a healthy life by offering routine services such as pap smears, mammograms, genetic screening, and bone density screening.

Minimally Invasive Solutions

Should issues arise that require surgery, we specialize in laparoscopic procedures for hysterectomy, tubal ligation, endometrial ablation, and LEEP with faster recovery times and little to no scarring.

Hormone Replacement

For patients who need hormone replacement options, our physicians can discuss traditional, as well as, some of the newest therapies available, including the BioTe bio-identical pellet.

Menstrual Cycle Management

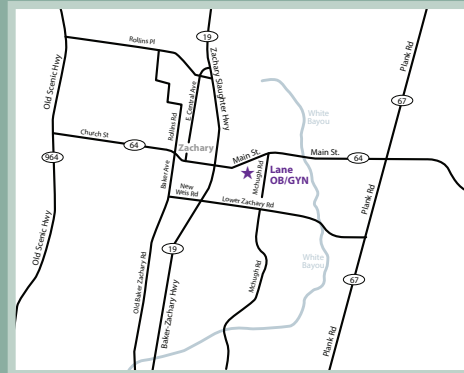

Our team can assist you with health concerns related to your menstrual cycles. Our goal is to help you regain a comfortable monthly cycle.

Contraception & Birth Control

There are several methods of birth control available including the traditional daily pill and uterine implants. Review your options with our team.

Obstetrics

Our Doctors and staff care for women during pregnancy, through birth, and during the postnatal period. We are experienced in managing high risk pregnancies as well.

Location

For your convenience, we are located on the second floor of the Lane Medical Plaza & Outpatient Diagnostic Center at 6550 Main Street in Zachary.

For More Information

To schedule an appointment, call Lane OB/GYN at 225-658-1303.

Care You Can Count On

At Lane OB/GYN, we understand the unique needs of women and their active schedules. The roles of mother, daughter, sister, grandmother, and wife as well as the demands of a job often take a precedent over a woman's own health. Yet staying proactive about your health must be a priority.

Our providers do all that they can to help make taking care of yourself a little easier. Our practice offers patient-focused care with flexible scheduling, quick registrations, timely appointments and follow-ups, and great customer service.

We recommend all women schedule an annual exam even if they are not having any immediate health concerns.

Our providers see patients for a wide range of GYN conditions including abnormal menstrual bleeding, pelvic pain and discomfort, sexually transmitted diseases, uterine fibroids, uterine prolapse, ovarian cysts, endometriosis, vaginal concerns, and more.

Backed by the full services of the hospital, Lane OB/GYN, is a department of Lane Regional Medical Center.

Appointments

We offer flexible scheduling options including online requests for appointments.

To schedule an appointment, call Lane OB/GYN at 225-658-1303.

From young adulthood to the childbearing years to menopause and post menopause, women trust our providers for their gynecology needs.
