

We are Dedicated

Our mission is to provide compassionate care for those directly and indirectly impacted by the brain disease of addiction, especially in the areas of:

- Positive lifestyle changes
- Problem solving
- Stress Management
- Relationships
- Communication
- Self-image and self-appreciation

Lane Recovery Solutions meets the evidenced-based standards set by the American Society of Addiction Medicine, the Substance Abuse and Mental Health Service Administration and the Joint Commission. Lane is also a designated Pathway to Excellence Hospital.

To schedule a confidential assessment at Lane Recovery Solutions, please call (225) 658-6640.

Supporting Your Decision for Change

If you or someone you love is suffering from addiction, Lane now offers a solution.

People from all walks of life often wake up one day and wonder how they reached the level of dependency, loneliness and helplessness they are experiencing due to addiction—this includes students, stay-at-home moms, business professionals, healthcare providers and retirees.

Lane Recovery Solutions is an outpatient substance abuse treatment center for adults age 18 and older who are impaired by one or more addictive substances, such as alcohol, prescriptions medications (including pain pills/opioids) or other drugs.

The program is medically-directed, comprehensive and structured to meet individual patient needs. It offers more intensive treatment options than the care provided in a doctor's office and is designed to be the least disruptive to a patient's life. It is often an alternative to inpatient care as patients are able to go back to their home environment each evening.

After successful completion of the program, the patient and their family members may continue their recovery journeys in an aftercare program and/or transition to a less intensive level of outpatient care.

Services Include:

- Comprehensive Assessments
- Individualized Treatment Plans
- Group Therapy
- Individual Counseling
- Family Counseling
- Outpatient Detoxification
- Drug and Alcohol Testing for Program Participants
- Relapse Prevention Training
- Medication Management
- Psychiatric Referral
- Aftercare Services and Follow-Up
- Case Management Services

How it Works

Physician referrals are not required for admission to our program, but you are encouraged to talk to your healthcare provider about any concerns you may have.

Anyone may contact Lane Recovery Solutions directly at (225) 658-6640; especially individuals who want to reclaim their lives from the torments of addiction, as well as family members, friends, employers, physicians and behavioral health professionals.

Most commercial insurance plans are accepted.

Your Treatment Team

Your treatment team will be comprised of a variety of medical and professional health care providers, including a physician specializing in addiction treatment, licensed addictions counselors, registered nurses and additional behavioral health staff members. The goal is to provide patients and their families the highest quality treatment available to address physical, psychological, social and spiritual aspects of recovery.
