Medical Center**

*Care You Can Count On*

Lane Regional Medical Center's WellnessWorks is an occupational health and wellness division designed to work hand-in-hand with local employers to assist with controlling costs associated with rising workers' compensation and general healthcare costs.

WellnessWorks is an effort to help industries streamline communications and provide timely access to services. WellnessWorks has put in place a physician panel consisting of general practitioners and physician specialists who are interested in helping the local workforce become healthier and more productive.

### **Return to Work Services & Benefits**

- Prompt management and communication of injury and injured worker through service coordination, providing all parties involved with the information needed to accelerate the return-to-work process.
- Assistance in eliminating workers' compensation fraud and abuse.
- Lower workers' compensation premiums and injury costs.
- Decrease lost work time and wages.

### **Taking Advantage of the Program**

Enrolling in the **FREE** WellnessWorks program entitles you to certain benefits and is complimentary to all employers courtesy of Lane Regional Medical Center.

Employers are not obligated to utilize all benefits provided and can simply apply parts of the program that fit their needs.

We offer injury prevention services, injury intervention services, service coordination, and wellness promotion.

A brief enrollment and implementation process is required to ensure the healthcare providers are informed and aware of the employer's requirements and protocols for handling specific healthcare needs.

### **For Area Businesses**

FASTLane provides a broad spectrum of occupational medicine services.

Our goal is to help area employers with screening and testing services for pre-employment as well as a continuum of care for employees injured on the job.

From caring for your employee following an injury to return to work documentation and clearance, our experienced team works with your business to ensure optimal outcomes.
