We are required to abide by the terms of this notice but reserve the right to change the terms of the notice and to make the new notice provisions effective for all protected health information we maintain. If we change the terms of notice, we will provide applicable individuals with a copy of the revised notice by hand-delivery or mail.

Protected Information

In order to conduct operations, our designated agents or we, collect, create and/or use different types of information. This may include information about an individual such as his or her name, address, age, health status, and information about dependents. Some of this information may qualify as protected health information. Our use or disclosure of protected health information may be restricted or limited by law. *Protected health information or PHI* means individually identifiable health information that is transmitted by electronic media, maintained in electronic or computer format, or transmitted or maintained in any other form or medium. Protected health information does not include certain educational or employment records.

Permitted Uses and Disclosures of Protected Health Information

For Payment – Our designated agents or we may use and disclose information about an individual in managing his or her employee benefits. This may include such functions as premium payment activities, reimbursing health care providers for services, determining eligibility or coverage of an individual, performing coordination of benefits, adjudicating claims, health care data processing including claims management, collection activities, obtaining payments under a reinsurance contract, medical necessity reviews, and/or utilization review activities.

For Health Care Operations – Our designated agents or we may use and disclose information about an individual for health care operations. This may include information about an individual needed to review the quality of care and services he or she receives, to provide case management

or care coordination services, provide treatment alternatives or other health-related benefits and services, and/or to perform audits, ratings, and forecasts (as limited by HIPAA standards).

For Treatment – Our designated agents or we may use and disclose information about an individual for treatment purposes. This may include information needed for the provision, coordination, or management of health care and related services

As Permitted or Required by Law – Information about an individual may be used or disclosed to regulatory agencies, for administrative or judicial proceedings, for health oversight activities, to law enforcement officials when required to comply with a court order or subpoena, and/or as authorized by and to the extent necessary to comply with workers’ compensation laws.

Public Health Activities – Information about an individual may be used or disclosed to a public health authority for the purposes of preventing and controlling disease, injury or disability, reporting child abuse or neglect, and/or to assist the Food and Drug Administration in tracking products and defects/problems as well as enabling product recalls and conducting post marketing activities. Information about an individual may also be used or disclosed if we reasonably believe that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public.

Abuse, Neglect or Domestic Violence – To the extent required or authorized by law, or with the individual’s consent, protected information about him or her may be disclosed to an appropriate government authority if we reasonably believe the individual is the victim of abuse, neglect, or domestic violence.

In the Event Of Death – In the event of an individual’s death, our designated agents or we may disclose the individual’s protected information to coroners, medical examiners and/or funeral directors as necessary to carry out their duties

Organ Transplant – Our agents or we may use or disclose an individual’s protected information to organ procurement organizations or related entities for the purpose of facilitating organ, eye or tissue donation and transplantation.

Correctional Institutions – Our agents or we may use or disclose an individual’s protected information to a correctional/custodial institution or appropriate law enforcement official if the individual is an inmate and the disclosure is necessary for his or her health care and the health and safety of the individual, other inmates, officers or institution employees.

Business Associates – Where it is necessary to help carry out our health care functions, we may disclose an individual’s information to a business associate and/or allow the business associate to create or receive protected health information on our behalf. In most situations, we must first obtain satisfactory written assurances that the business associate will appropriately safeguard the information. No such assurances are required, however, where disclosure is made to the individual’s health care provider for treatment purposes.

Minimum Disclosure Required – When using, disclosing, or requesting an individual’s information, we are normally required to make reasonable efforts to limit protected health information to the minimum necessary to accomplish the intended purpose of the use, disclosure or request. This limitation does not apply in situations involving disclosures to the individual or made pursuant to his or her authorization, to a health care provider for treatment, to the Secretary of Health and Human Services (“HHS”) for HIPAA compliance and enforcement purposes, or as otherwise required by law.

Censeo Health LLC	Effective Date: 2-1-10
Title: HIPAA Program	Date Reviewed: 9-15-17

Time Frame for Responding to a Request for Amendment

Once we receive the written request to amend information, we will attempt to act on it within 60 days. If we cannot meet the 60 day deadline, we may extend the period once for up to an additional 30 days. In that event, we will give the individual advance (before the expiration of the original 60 days) written notice of the extension and provide a statement of the reason(s) for delay.

Granting the Requested Amendment

Notice to the Individual. If we grant the requested amendment, in whole or in part, we will notify the individual of our decision and request the following from them:

- The identification of persons who have received protected health information about them and who need notice of the amendment; and
- The individual's agreement to allow us to provide notice of the amendment to (1) the persons the individual identifies and (2) persons and entities we know who have the information that is the subject of the amendment and that may have relied, or could potentially rely, on the information to their detriment.
 - In order to notify necessary third parties, we are required to take reasonable steps to obtain this information from the individual. If the individual refuses or fails to provide the information, we will document all efforts we have undertaken to obtain the information. The individual's failure or refusal to cooperate does not alter our obligation to make the appropriate amendment.

Request Granted only in Part – In the event that only part of the requested amendment is granted, we will follow the procedures set forth below with regard to the denial of the remaining portion of the request.

Amending the Information – Once we have obtained this information and the individual's agreement, we will make the appropriate amendment by identifying the records that are affected by the amendment and appending or otherwise providing a link to the location of the amendment.

Notice to 3rd Parties – We will provide written notice of the amendment to any person (or entity), including a business associate, who:

- Has received protected health information about the individual in the past and needs notice of amendment, and/or
- Possesses the protected health information that is the subject of the amendment and may have relied, or could potentially rely, on the information to your detriment.

Denying the Requested Amendment

Censeo Health LLC	Effective Date: 2-1-10
Title: HIPAA Program	Date Reviewed: 9-15-17
Approved By: Compliance Officer	Date Revised: 9-15-17

Grounds for Denial – We may deny an individual’s request for an amendment if we determine that the protected health information or record that is the subject of the request:

- Was not created by us (unless the individual provides a reasonable basis to believe that the originator of the information is no longer available to act on the requested amendment);
- Is not part of our records;
- Is not available for the individual’s access under federal law and/or our policy regarding rights to access; or
- Is accurate and complete.

Notice of Denial – If we deny a request for amendment, in whole or in part, we will notify the requesting individual of our decision in writing and include a plain language description of the reason(s) for our denial, and explanation of the individual’s rights, as set forth below, in response to our denial, and a description of how the individual may lodge a complaint about the decision.

Individual’s Right to Submit a Statement of Disagreement – If we deny a request for an amendment, in whole or in part, the individual has the right to submit a written statement disagreeing with our denial and the reason(s) for the disagreement. The statement of disagreement should not exceed 1000 words and must be submitted to CenseoHealth’s Privacy Officer, 4055 Valley View Lane, Suite 400, Dallas, TX 75244 within 21 days of the individual’s receipt of the notice of denial. The individual will waive his or her right to file a statement of disagreement if he or she fails to comply with these requirements. We may prepare a written rebuttal to the individual’s statement of disagreement. If we do so, we will provide a copy to the individual.

Other Rights – if the individual does not submit a statement of disagreement, he or she may request that we provide copies of the request for amendment and the denial notice with any future disclosures of the protected health information that is the subject of the amendment.

Record of Denial – If we deny a request for an amendment, in whole or in part, we will maintain record that identifies the record or information that is the subject of the disputed request for amendment, and append to the records, or otherwise link, the individual’s request for amendment, our denial, and, if applicable, the individual’s statement of disagreement and our rebuttal, if any.

Future Disclosures -- Statement of Disagreement on File – If the Individual has submitted a statement of disagreement, we will include the information identified in the *Record of Denial* section, above, or an accurate summary of such information, with any subsequent disclosure of the information to which the disagreement relates.

Title: HIPAA Program	Date Reviewed: 9-15-17

Future Disclosures -- No Statement of Disagreement Submitted – If the individual does not submit a timely statement of disagreement, we will include the request for amendment and our denial, or an accurate summary of such information, with any subsequent disclosure of the information to which the disagreement relates.

Future Disclosures -- Situations Where Additional Material Cannot be Provided – If we make a subsequent disclosure using a standard transaction that does not permit additional material to be included with the disclosure, we will separately submit any required material to the recipient.

Our Receipt of Amendment by another Entity

If we receive notice from another entity that the entity has amended an individual’s protected health information, we will amend any applicable information in our records.

Complaints

Individuals who believe their HIPAA privacy rights have been violated have the right to file a complaint with either the Secretary of the U.S. Department of Health and Human Services, 200 Independence Ave., S.W., Washington, D.C. 20201, or CenseoHealth’s Compliance Officer, at 4055 Valley View Lane, Suite 475, Dallas, TX 75244. The complaint should be in writing, either on paper in electronic format, and generally describe the acts or omissions believed to be in violation of the individual’s rights. Individuals will not be retaliated against for filing a complaint.

III. ACCOUNTING OF DISCLOSURES

Right to an Accounting

Individuals have a right, subject to certain limitations, to receive an accounting of our disclosures of their protected health information.

Covered Time Period

The right to an accounting of disclosures extends back six (6) years prior to the individual’s request for an accounting. The individual may limit their request to a time period less than six (6) years.

Limitations on Right to Accounting

Individuals do not have a right to an accounting of the disclosures we have made for the following reasons:

- To carry out treatment, payment and health care operations, in accordance with our privacy policies;

Censeo Health LLC	Effective Date: 2-1-10
Title: HIPAA Program	Date Reviewed: 9-15-17
Approved By: Compliance Officer	Date Revised: 9-15-17

- To the individual in response to their request for such a disclosure;
- Incident to a use or disclosure otherwise permitted or required by law, including secondary uses or disclosures that cannot reasonably be prevented, are limited in nature, and that occur as a result of another use or disclosure that is permitted by law;
- Pursuant to a valid authorization, signed by the individual, that allows us to use or disclose their protected health information;
- For our facility directory, to persons involved in the individual’s care, or for notification purposes in emergency or exigent circumstances as allowed under federal law;
- To correctional institutions or law enforcement officials in certain limited situation;
- As part of a limited data set that excluded all references to personal identification information; or
- That occurred prior to the date on which we became subject to the Department of Health and Human Services’ HIPAA Privacy Rule.

Temporary Suspension of Right to Accounting

We may be required to temporarily suspend an individual’s right to an accounting of disclosures to a health oversight agency or law enforcement official for a certain period of time if we are notified by a health oversight agency or law enforcement official/agency that such an accounting to the individual would be reasonably likely to impede the agency’s activities. If possible, we should obtain from the requesting agency/official a written statement detailing the notice of the length of time for which suspension is required. If the statement is made orally, we are still required to suspend the right, but also must:

- Document the statement, including the identity of the agency/official making the statement; and
- Limit the temporary suspension to no longer than 30 days from the date of the oral statement, unless the agency/official provides a written statement during that time period.

Content of Accounting

The accounting of our disclosures or an individual’s protected health information will include the following information:

- An itemized list of each disclosure of protected health information that occurred during the relevant time period (unless the disclosure was made pursuant to one of the exempt categories set forth above);
- The date of each disclosure;
- The name and address (if known) of the entity or person who received the information;
- A brief description of the information disclosed; and
- A brief statement of the purpose of the disclosure.

Abbreviated Accounting

We may provide an abbreviated, but meaningful, summary of the disclosures if we have made multiple disclosures to the same person or entity for a single purpose. The summary must include the following information:

- The same detailed information required for an accounting of a normal disclosure, but only with respect to the first disclosure during the accounting period;
- The frequency, periodicity, or number of the disclosures made during the accounting period; and
- The date of the last such disclosure during the accounting period.

We may also provide an abbreviated, but meaningful summary, if we have made disclosures for a particular research purpose for 50 or more individuals. The summary must include the following information:

- The name of the protocol or other research activity;
- A plain language description of the research protocol or other research activity, including the purpose of the research and the criteria for selecting particular records;
- A brief description of the type of protected health information that was disclosed;
- The date or period of time during which such disclosures occurred, including the date of the last such disclosure during the accounting period;
- The name, address, and telephone number of the entity that sponsored the research and of the researcher to whom the information was disclosed; and
- A statement that the protected health information of the individual may or may not have been disclosed for a particular protocol or other research activity.

If we provide an accounting for research disclosures, and it is reasonably likely that the protected health information of the individual was disclosed for such research protocol or activity, we shall, at the request of the individual, assist in contacting the entity that sponsored the research and the researcher.

Time Frame

Once we receive a written request, we will provide the individual with the accounting within 60 days. If we cannot meet the 60 day deadline, we may extend the period for up to an additional 30 days. In that event, we will give the individual advance written notice of the extension and provide a statement of the reason(s) for the delay.

Cost

An individual will not be charged for the first accounting in any 12 month period. We may charge a reasonable, cost-based fee for each subsequent request for an accounting. In that case, we will provide the individual, in advance, with an estimate of the fee and they will be given an opportunity to withdraw or modify their request in order to avoid or reduce the fee.

Documentation

We will document and retain the following information:

- Relevant details regarding our disclosures of protected health information;
- A copy of any accounting provided to an individual; and
- The titles of the persons or offices responsible for receiving and processing requests for an accounting by individuals.

Complaints

Individuals who believe their HIPAA privacy rights have been violated have the right to file a complaint with the Secretary of the U.S. Department of Health and Human Services, 200 Independence Ave., S.W., Washington, D.C. 20201, or CenseoHealth’s Compliance Officer, at 4055 Valley View Lane, Suite 475, Dallas, TX 75244. The complaint should be in writing, either in paper or in electronic format, and generally describe the acts or omissions believed to be in violation of the individual’s rights. Individuals will not be retaliated against for filing a complaint.

IV. MEMBERS OF THE WORKFORCE – TRAINING & CONDUCT

Compliance Obligation – Members of the Workforce

Our compliance with the HIPAA Privacy Standards requires the assistance, involvement, and education of all our Members of the Workforce. “Members of the Workforce” are all those individuals who act on our behalf, perform work for us, and act at our direction, facilitating our normal business operations. Persons who fall within this category include employees, volunteers, trainees, medical residents, independent contractors and leased or temporary workers.

Reasonable Safeguards against Unnecessary Use or Disclosure

We will put into place and maintain reasonable safeguards to guard against and keep to a minimum unnecessary disclosures, or disclosures that occur incidentally in the workplace. These safeguards will involve our physical facilities, general operations, training and policies and procedures.

Reporting Violations

Training

We will provide training to all Members of the Workforce, regardless of whether their employment positions require them to use or disclose protected health information. The substance and amount of training will depend on the employee’s duties and level of exposure to protected health information.

V. CONTRACTED PROVIDERS AND HIPAA COMPLIANCE

Compliance Obligation – Contracted Providers

Our compliance with the HIPAA Privacy Standards requires the assistance, involvement, and education of all our Contracted Providers who perform in-home evaluation or other services on behalf of CenseoHealth.

Reasonable Safeguards against Unnecessary Use or Disclosure

It is every Contracted Provider’s responsibility to insure that they securely protect the all medical records (i.e. evaluations) and ensure the privacy of the health plan members they are seeing. Specifically, all Contracted Providers must abide by the following:

1. Since all evaluations are to be performed on the CenseoHealth issued iPad unless there are technical reasons preventing its use and therefore a paper evaluation must be used,

only the Contracted Provider or an approved companion is permitted to have access to the iPad and any data contained therein.

3. If evaluations are in a paper format, the evaluations are to be individually stapled, clipped or rubber banded to ensure if they are dropped no pages will be lost.
4. If evaluations are in a paper format, the evaluations may not be left in a vehicle unless they are securely locked up in a secure and closed container in the vehicle's trunk. Evaluations may not be left out in plain view in any vehicle.
5. If evaluations are in a paper format, the evaluations may not be left in any vehicle overnight.
6. If evaluations are in a paper format, review all evaluations before returning them to CenseoHealth to ensure all evaluations and all evaluation pages are present and account for.
7. In the event a paper evaluation or any paper evaluation page is lost, misplaced or stolen, report it immediately to CenseoHealth.

Training

We will provide training to all Contracted Providers before they are permitted to perform any in-home evaluation.

Sanctions

VI. CREATING AND MAINTAINING PRIVACY COMPLIANCE RECORDS

Creation of Compliance Records

- **Internal Records**
 - We are required by law and our own policies to create certain records relating to implementation and maintenance of our privacy compliance program. Where possible, these records should be maintained in a central and secure location. The Compliance Officer is responsible for ensuring our compliance with the appropriate record keeping obligations.

- **Matters that Require and Individual’s Written Submission**
 - An individual may be required to submit certain matters to us in writing, such as a complaint or request for amendment. When possible, the intake employee should provide the individual with the appropriate form. The intake employee should also ensure that the form is fully and properly completed.

- **Matters that Only Require an Individual’s Verbal Statement**
 - An individual is not always required to submit a request in written form. In those instances, the intake employee should encourage the individual to make the submission in writing and use the appropriate form. If, however, the individual refuses, the intake employee should fill in the appropriate form or otherwise document the relevant and necessary details.

We are required by law to maintain copies of the following types of documents in written or electronic format:

- Policies and Procedures;

We are required by CMS to retain a record for 10 years from the date of its creation or the date when the record was last in effect, whichever is later. We may be required to maintain certain records longer under applicable state law.

Storage and Protection

Where possible, all compliance records should be maintained in a central and segregated location. Reasonable security measures will be taken to ensure that only authorized and necessary employees will have access to the records.

VII. REQUESTS FOR ACCESS TO RECORDS

No Right of Access to Certain Records

An individual does not have a right of access under federal law to certain record sets. If an individual submits a request that includes both prohibited and lawfully accessible information, we will exclude the prohibited information and give the individual access to the remaining requested information.

Access is not permitted to the following record sets or under the following circumstances:

- A licensed health care professional has determined, in the exercise of professional judgment, that the access request is reasonably likely to endanger the life or physical safety of the individual or another person;
- The requested protected health information makes reference to another person (other than a health care provider) and a licensed health care professional has determined, in the exercise of professional judgment, that the access requested is reasonably likely to cause substantial harm to the other person;
- The request for access is made by an individual's personal representative and a licensed health care professional has determined, in the exercise of professional judgment, that the provision of access to such personal representative is reasonably likely to cause substantial harm to the individual or another person;
- The record set contains psychotherapy notes;
- The record set includes information that is compiled in reasonable anticipation of, or for use in, a civil, criminal, or administrative action or proceeding;
- When access is prohibited by the Clinical Laboratory Improvements Amendments of 1988, 42 U.S.C. 263a;
- Protected health information that is exempt from the Clinical Laboratory Improvements Amendments of 1988, 42 U.S.C. 263a, pursuant to 42 CFR 493.3(a)(2);

Censeo Health LLC	Effective Date: 2-1-10
Title: HIPAA Program	Date Reviewed: 9-15-17
Approved By: Compliance Officer	Date Revised: 9-15-17

- Where the requested information is subject to the Privacy Act, 5 U.S.C. §552a, and denial of access is proper under the Privacy Act; or
- The requested protected health information was obtained from someone other than a health care provider under a promise of confidentiality and the access requested would be reasonably likely to reveal the source of the information.

Time-Frame – Once the individual submits a written request, we will act on it within 30 days unless the information they seek is not maintained or kept on-site. In that instance, we will act on the request within 60 days. If we are unable to act within the 30 day (or 60 day, if applicable) time frame, we may extend the period once for no more than 30 days provided that, within the original time period, we notify the individual in writing of the new response deadline and the reasons for the delay.

Review Process – Our Compliance Officer or other designated agent will review the request and the applicable records to determine whether they are subject to access, in whole or in part. If necessary, the reviewing agent will seek the guidance of a licensed health care professional when making this determination.

Request Granted – If we grant the request, in whole or in part, we will notify the individual of our decision, in writing, and provide the requested copy and/or, if possible, the form of access requested.

Cost – If the individual requests a copy, we may charge them a reasonable, cost-based fee. In that case, we will provide the individual, in advance, with an estimate of cost.

Information Not Maintained By Us – If we do not maintain the information the individual seeks, but know where it is maintained, we will inform the individual where to direct his or her request for access.

Request Denied – If we deny the request, in whole or in part, we will notify the individual in writing and include a plain language description of the basis for the decision, the individual’s rights, if any, to a review of our decision, and a description of the complaint procedures established under federal law.

Individual’s Rights Following Denial

Denials Subject to Review – An individual only has a right to request a review of our decision to deny access if the denial is based on one of the following reasons:

Censeo Health LLC	Effective Date: 2-1-10
Title: HIPAA Program	Date Reviewed: 9-15-17
Approved By: Compliance Officer	Date Revised: 9-15-17

- A licensed health care professional has determined, in the exercise of professional judgment, that the access requested is reasonably likely to endanger the life of physical safety of the individual or another person;
- The requested protected health information makes reference to another person (other than a health care provider) and a licensed health care professional has determined, in the exercise of professional judgment, that the access requested is reasonably likely to cause substantial harm to the other person; or
- The request for access is made by an individual’s personal representative and a licensed health care professional has determined, in the exercise of professional judgment, that the provision of access to such personal representative is reasonably likely to cause substantial harm to the individual or another person.

Time for Requesting Review – Any request for review of our denial must be submitted within 21 days of the individual’s receipt of notice of our decision to deny the request. An individual who submits a request after the expiration of 21 days will be deemed to have waived his or her rights to review and the request will be automatically denied.

Form of Request – The request may be made either orally or in writing, although the individual should be encouraged to complete our form. If the request is made orally, the intake employee should document date of the request, the identity of the requesting individual, the intake employee’s own name, and any other relevant information.

Reviewing the Decision – Following the request we will designate a licensed health care professional, who did not participate in the original decision to deny access, to act as the reviewing official and refer the matter to him/her for review and determination. We will provide or deny access in accordance with the determination.

Complaints

Individuals who believe their HIPAA privacy rights have been violated have the right to file a complaint with the Secretary of the U.S. Department of Health and Human Services, 200 Independence Ave., S.W., Washington, D.C. 20201, or CenseoHealth’s Compliance Officer, at 4055 Valley View Lane, Suite 475, Dallas, TX 75244, 972-715-3739. The complaint should be in writing, either in paper or in electronic format, and generally describe the acts or omissions believed to be in violation of the individual’s rights.

RESOLUTION OF OBJECTIONS AND COMPLAINTS

Individuals’ Right to Object and Complain

Individuals have the right to file objections or complaints regarding our handling of their protected health information. Our obligation to take action(s) in response to an objection or complaint depends on the nature of the objection or complaint.

Form of Complaint or Objection

Whenever possible, individuals should be urged to file complaints or objections in written or electronic format (a written complaint or objection may be required in certain instances). If the complaint or objection is made verbally, the intake employee should, as soon as possible, document the relevant facts, including the substance of the complaint or objection, the date it was submitted, the identity of the individual, the identity of the intake employee, and any other fact that might be relevant to a resolution of the complaint or objection.

Specific Instances

- **Impermissible Use or Disclosure by a Business Associate**
 - *Form* – A complaint involving Business Associate’s alleged impermissible use or disclosure of protected health information may be made verbally or in writing, although the individual should be encouraged to provide a written complaint or objection.
 - *Investigation* – Following receipt of the complaint, our Compliance Officer or other qualified and duly designated agent will conduct a thorough investigation of the complaint to determine its validity. The investigation should be commenced within 7 business days of the receipt of the complaint and be completed within 45 days, unless completion within such a time frame is unreasonable. The investigator should document all steps of the investigative process.
 - *Violation Found* – If the investigation establishes that the Business Associate improperly used or disclosed protected health information or otherwise violated the terms of its Agreement, we will take reasonable steps, depending on the situation, to end the violation and prevent similar future occurrences.
 - *Re-occurring Violation* – If the violation or similar improper use or disclosure occurs despite our having taken reasonable steps to cure the problem, we will terminate the contract or arrangement with the Business Associate. If termination of the contract or agreement is not feasible, we will report the problem to the Department of Health and Human Services Office for Civil Rights.
 - *Contractual Provisions Control* – Prior to addressing a contractual violation or impermissible use or disclosure, the applicable Business Associate should be carefully

reviewed to determine the proper procedure and our obligations with regard to providing notice to the Business Associate.

- *Notifying the Individual* – When practical, we will provide a written response to the complaint within a reasonable time period. The response should acknowledge our receipt of the complaint and generally describe an action taken in response to the complaint.

Complaints regarding impermissible use or disclosure by a Member of the Workforce fall into this category. Individuals who believe their HIPAA privacy rights have been violated have the right to file a complaint with the Secretary of the U.S. Department of Health and Human Services, 200 Independence Ave., S.W., Washington, D.C. 20201, or CenseoHealth’s Compliance Officer, at 4055 Valley View Lane, Suite 475, Dallas, TX 75244, 972-715-3739. VIII. SECURITY BREACHES

General Policy

CenseoHealth will notify individuals in compliance with federal law if their unsecure protected health information is breached.

What Information is Subject to this Policy?

This policy only applies to “unsecure” PHI, which includes information that is **not** either encrypted under specific standards adopted by the National Institute of Standards and Technology (“NIST”) or destroyed so that it cannot be read or reconstructed.

What is a Breach?

A breach will occur if the following 3 requirements are met:

1. Information is “unsecure” as described above;
2. Information was used or disclosed in an “unauthorized” manner—this means that the information was used or disclosed in a manner that is not permitted under the HIPAA privacy rules, including a violation of the minimum necessary rule; and
3. The use or disclosure poses a significant risk of financial, reputational, or other harm to the individual.

CenseoHealth will perform a risk assessment to determine if harm has occurred and review factors such as to whom the information was disclosed, the type of information disclosed, and what steps were taken upon discovery of the use or disclosure.

Exceptions

A use or disclosure does not occur if one of the following exceptions applies.

1. *Unintentional access by a covered entity’s or business associate’s employee* – This means access which is in good faith, within the employee’s course and scope of employment, and that does not result in further use or disclosure.
2. *Inadvertent disclosure from one covered entity or business associate employee to another similarly situated employee* – The information must not be further used. “Similarly situated” means both employees must be authorized to access the information. For example, a doctor and a billing employee maybe similarly situated in that they are both authorized to view PHI, but a doctor and a receptionist might not be.
3. *The recipient would not reasonably have been able to retain the information* – For example, where health information is mailed to the wrong individual. If the envelope is returned unopened, the plan could determine that the recipient did not retain the information.

When is Individual Notice Required?

If there is a breach, CenseoHealth must notify the client health plan and the individual without unreasonable delay, but no later than 60 days after the discovery of the breach. The breach will be considered discovered on the first day it is known to any member of the workforce (other than the person who committed the breach), or the date it would have been known if we had exercised reasonable diligence.

Form of the Notice

The notice must be written in “plain language” and contain:

- A brief description of what happened, including the date of the breach and date of discovery;
- The types of PHI involved (such as whether full name, SSN, date of birth, home address, account number, diagnosis, disability code, or other types of information were involved);
- Any steps the individual should take to prevent themselves from potential harm;
- A brief description of steps CenseoHealth is taking to investigate, mitigate losses, and protect against further breaches; and
- Contact information for questions, including a toll-free telephone number, email address, website, or postal address.

Notice must be sent to the individual’s last known address or by email if the individual agrees. Notices to minors generally can be sent to parents and notices to deceased individuals generally can be sent to next of kin or a personal representative, consistent with the HIPAA privacy rules.

Insufficient Contact Information or Notification is Returned as Undeliverable

If insufficient or out-of-date contact information precludes individual notice, CenseoHealth will provide a substitute form of notice.

- *If fewer than 10 individuals are involved* – The substitute notice may be an alternative form of notice that is reasonably calculated to reach the individuals, such as by telephone, email, or posting on the covered entity’s website.
- *If 10 or more individuals are involved* – CenseoHealth will either post the notice on its homepage for 90 days or provide notice in major print or broadcast media in the geographic areas where affected individuals are likely to reside. Under either approach, CenseoHealth will maintain a toll-free number for 90 days so individuals can ask questions. For website posting, the notice will be prominent so that it is noticeable given its size, color, and graphic treatment in relation to other parts of the page, and worded to convey the nature and importance of the information. The notice will be included both on the homepage and “landing page” for existing account holders.

GENERAL DESCRIPTION OF THE ACCOUNTING PROCESS

Right to an Accounting

You have a right, subject to certain limitations, to receive an accounting of our disclosures of your protected health information

- As part of a limited data set that excluded all references to personal identification information; or

Covered Time Period

Your right to an accounting of disclosures extends back six years prior to your request for an accounting. Censeo Health LLC (“CenseoHealth”) is not obligated, however, to provide an accounting for disclosures that occurred prior to 4.14.04, the date on which CenseoHealth became subject to the Department of Health and Human Services’ HIPAA Privacy Rule.

We may also be required to temporarily suspend your right to an accounting for a certain period of time if we are notified by a health oversight agency or law enforcement official/agency that an accounting to you would be reasonably likely to impede the agency’s activities.

Limitations on Right to Accounting

- To carry out treatment, payment and health care operations, in accordance with our privacy policies;
- To you in response to your request for such a disclosure;
- Incidental to a use or disclosure otherwise permitted or required by law, including secondary uses or disclosures that cannot reasonably be prevented, are limited in nature, and that occur as a result of another use or disclosure that is permitted by law;
- Pursuant to a valid authorization, signed by you, that allowed us to use or disclose your protected health information;
- For our facility directory, to persons involved in your care, or for notification purposes in emergency or exigent circumstances as allowed for under federal law;
- For national security or intelligence purposes as provided for under federal law;
- To correctional institutions or law enforcement officials in certain limited situations;

Content of Accounting

The accounting of our disclosures of your protected health information will include the following information:

- An itemized list of each disclosure of protected health information that occurred during the relevant time period (unless the disclosure was made pursuant to one of the exempt categories set forth above);
- The date of each disclosure;
- The name and address (if known) of the entity or person who received the information;
- A brief description of the information disclosed; and
- A brief statement of the purpose of the disclosure.

We may provide an abbreviated, but meaningful, summary of the disclosures if:

- We have made multiple disclosures to the same person or entity for a single purpose ; and
- We have made disclosures for a particular research purpose under certain circumstances.

Time Frame

Once you submit a written request, we will provide you with the accounting within 60 days. If we cannot meet the 60 day deadline, we may extend the period for up to an additional 30 days. In that event, we will

In all cases, Business Associate shall request and disclose PHI only in a manner that is consistent with guidance issued by the Secretary from time to time.

V. TERM AND TERMINATION

a. TERMINATION BY EITHER PARTY FOR MATERIAL BREACH. Either party may terminate this Agreement immediately if such party determines that the other party has acted or failed to act in a manner that constitutes a material breach of HIPAA or this Agreement. Each party acknowledges that a material breach would result in irreparable harm to the other party and that such other party also has the right to seek an injunction and other legal and equitable rights and remedies available under the law.

b. CURE. As an alternative to the preceding paragraph, Covered Entity may choose to provide Business Associate with 5 business days’ written notice of the existence of an alleged material breach, and afford Business Associate the opportunity to cure such alleged material breach. Business Associate must cure such breach to the satisfaction of Covered Entity or Covered Entity may declare a material breach in accordance with section V(a) above. If termination of this Agreement is not feasible, Covered

Entity shall report the problem to the Secretary of U.S. Health and Human Services.

Upon termination or expiration of this Agreement for any reason, Business Associate shall return and/or destroy all PHI received or created pursuant to this Agreement that Business Associate maintains in any form, and shall retain no copies of such PHI; or if return or destruction is not feasible, Business Associate shall continue to extend protections of this Agreement to such information, and limit further use of such PHI to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such PHI.

VI. DISCLAIMER

Covered Entity makes no warranty or representation that compliance by Business Associate with this Agreement, HIPAA, the HITECH Act, or the Privacy and Security Rules will be adequate or satisfactory for Business Associate's own purposes.
