MYOB Greentree

A powerful
ERP for
complex
businesses

myob

Introducing MYOB Greentree

Big businesses need powerful software. MYOB Greentree is an ERP for companies that want to think smarter, perform better and stay ahead.

Since 1984 as an independent company, and now as part of MYOB, Greentree helps companies to simplify success by delivering vital information on-demand, providing an instant snapshot of what their business is doing; today, yesterday and tomorrow.

Our customers are constantly looking for new ways to grow, be more competitive and, ultimately, be in total control.

MYOB Greentree businesses manage large urban and rural properties, grow fresh fruit and vegetables, deliver insurance and financial services, keep workplaces cool in subtropical climates, and sell seafood around the world.

Whatever they're doing, they want to be the best. MYOB Greentree exists to help them get there.

What is an ERP?

ERP, or Enterprise Resource Planning, is the integrated management of core business processes, often in real-time, enabled by software and technology. ERP software facilitates the information flow between all business functions.

ERP systems are used by complex businesses across all sectors, including:

- + Supply Chain
- + Distribution
- + General Services
- + Construction & Engineering
- + Not-For-Profit
- + Professional Services
- + Manufacturing
- + Healthcare
- + Education
- + Hospitality
- + Agriculture & Fisheries
- + Wholesale, Mining
- + Property Development.

Empowering complex businesses

Powerful, flexible and scalable, MYOB Greentree empowers complex businesses to:

- + Leverage secure, enterprise-level functionality to improve everything from sales, purchasing and logistics, to job costing, financial management and payroll.
- + Build more efficient and streamlined operations
- + Gain full visibility and control of performance, costs and profit
- + Increase customer satisfaction by improving response time and accuracy, removing bottlenecks
- + Tailor a solution to their unique needs by choosing the deployment option, modules and frameworks that work best.

How MYOB Greentree makes running a complex business simpler

A sophisticated, enterprise-level solution, MYOB Greentree helps businesses to understand, improve and automate what happens at every level of operations to make complexity more manageable.

Unified solution

MYOB Greentree helps your organisation work together by removing problems caused by information and reports that don't match. Integrated and unified solutions enable different departments' systems to talk to, and understand, each other.

Powerful, flexible and scalable

Pick and choose from 80-plus modules, customising the solution to organisational requirements. Match the system to your business as it evolves. MYOB Greentree's functionality flexes to suit your business.

Deeper insights, better performance

MYOB Greentree ERP's functionality has enormous depth and breadth across operations. It'll simplify information so you can delve deeper. You'll gain insights that empower better decisions, driving efficiency and profit.

Work smarter

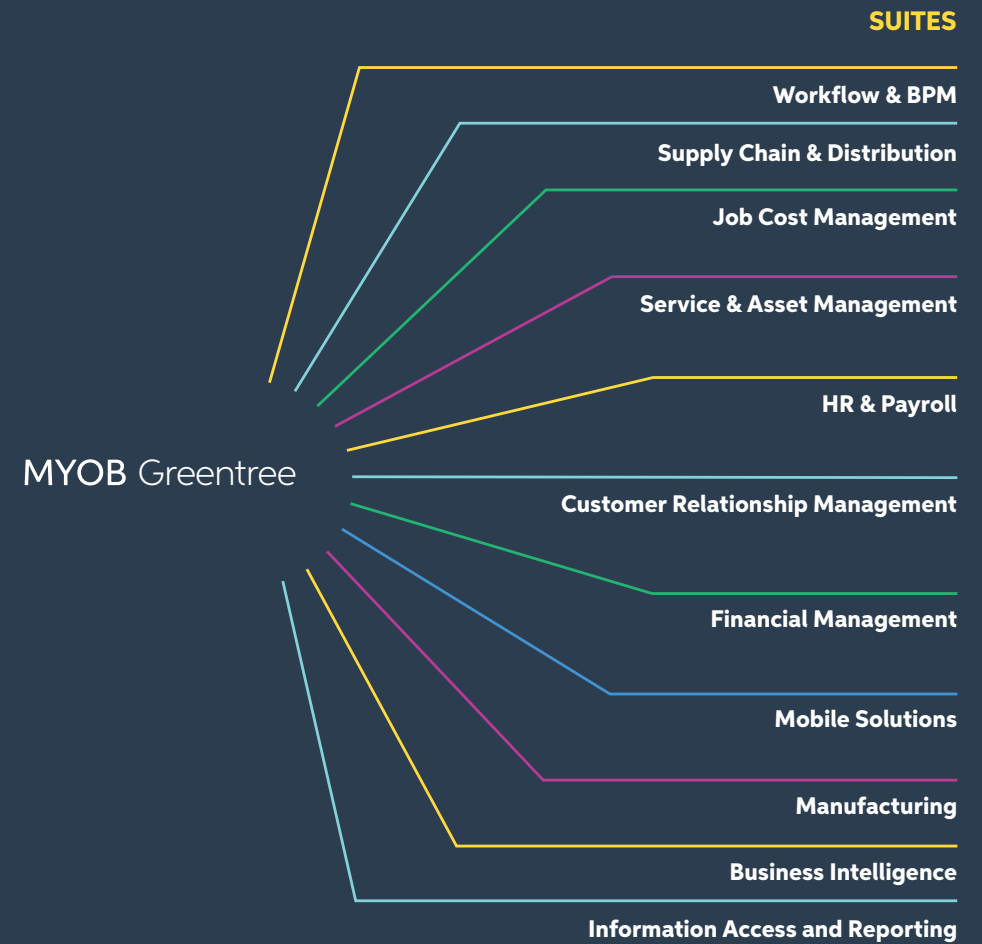

Ensure teams have the right information and remove inefficiencies by streamlining operations. With powerful tools, such as business process management, workflows, approvals and alerts, you'll improve productivity, performance and profit.

The fully integrated ERP built for you

MYOB Greentree is built on 11 suites housing over 80 modules to power big, complex businesses. Choose the appropriate suites and modules to suit your company's requirements, confident in the knowledge the system can scale and adapt as your needs change. This fully integrated software gives you the accurate, real-time information you need to make the right calls at the right time.

Deploying MYOB Greentree into your business

MYOB Greentree collaborates with a high performing partner community. This partner network demonstrates, implements and supports MYOB Greentree clients. These partners are solution-providers – using their insight and expertise to build the right MYOB Greentree system for you.

"It was our relationship with the Greentree Partner, and the passion they had for the system, that tipped the balance for us.

Andy's Earthmovers Mining

"The Greentree partner has been excellent; they ensured that the scope of work was accurately worked out and the implementation was on time and on budget. What more could you ask for!"

Easi Yo Food and Beverage

"Without the Greentree partner's skills and ideas, we would not be able to do core business to the same level of efficiency we have achieved over the past year. We keep asking, 'How did they know we'd need that?' Brilliant."

**Compass Housing Services
Community Housing**

"With the help of the Greentree Partner, we've achieved some significant milestones. Their knowledge of Greentree has been invaluable and we're excited about continuing our journey towards achieving even greater things in the future."
