

New Ownership to Drive Expansion of Services; Improve Operating Efficiencies

CRANFORD, NJ - March 6, 2017

Maintech, Incorporated is pleased to announce it has been acquired by Maintech Holding LLC, an affiliate of Oak Lane Partners (OLP). OLP is a private investment firm that invests in middle market businesses with strong market presence and substantial growth potential. OLP has significant experience in IT infrastructure services and manages other complementary businesses in the industry. This acquisition aligns Maintech with a supportive ownership team prepared to invest in Maintech's future, and a family of OLP companies to add depth and geographic reach to Maintech's portfolio of services.

"I am very pleased to announce that Maintech has joined the OLP family of companies." stated Maintech President, Frank D'Alessio. "Maintech's brand is recognized as the premier [Independent Services Organization \(ISO\)](#) in the global, high-end [Data Center](#) market, and its [Managed Services \(ITaaS\)](#) offering is an industry leader in [IT Infrastructure services](#) for the SMB market. Maintech anticipates that its brand will be energized by its affiliation with the OLP companies, and by the investment support and business development expertise of its new corporate parent."

About Maintech

Maintech was founded in 1973 as a [Third Party Maintenance](#) (TPM) company delivering IT Hardware Maintenance services to the Financial Services and Telecommunications marketplaces. Over the years, Maintech has evolved into a truly Independent Services Organization (ISO) delivering a comprehensive portfolio of single-source Managed Services for IT Infrastructure Support including Hardware Maintenance, NOC Monitoring, Server and Network Administration, Cloud Services, Help Desk, IT Asset Management/Destruction and many more. Maintech serves customers ranging from the SMB to the Fortune 100 global enterprise marketplace. Collectively, Maintech and its sister company DecisionOne, represent the largest IT Infrastructure Services-only company in the market today.
