ALL NATURAL DOG TREATS COLO. USA

BEEF MARROW BONE

Ingredients: 100% beef bone, made in the USA

Description: These marrow bones are sliced to either a 1", 4", or 7" length from a beef shank bone, with some marrow in the center. Each piece is individually shrinkwrapped and comes with a UPC sticker.

Recommended for: 1" bones: for very small breeds, 4" bones: for dogs up to 45 lbs, 7" bones: Medium to large adult dogs over 45lbs.

Chew Time: This is a very long lasting chew for most dogs.

Sales Tips: Bones are one of the longest lasting natural chews out there, especially when compared to the price point. Dogs find the marrow as well as the surrounding bits of meat and tendon irresistible, so it's a great recommendation for those picky dogs.

This bone is sourced from a weight bearing bone, so it will not splinter like a rib bone. All weight bearing bones are extremely dense, and should not be offered to dogs with underlying dental problems.

Guaranteed Analysis: Crude Protein: >30%, Crude fat: >15%, Moisture: <6%, Fiber: <3%

Ways to Purchase: In bulk, as a 1", 4", or 7" length.
