Product Owner

About Capacitas

Capacitas is a leading IT consultancy firm which helps it clients deliver IT faster, mitigate IT performance risk and reduce IT cost. We work with large-scale clients such as easyJet, Arcadia, Skype and Ancestry.com.

The software we develop is integral to our consultancy services. We are expanding rapidly with 30% growth this year. This is a fantastic opportunity to join a growing software development team that will be integral to the company's success in the future.

The Role

We are looking for a Product Owner to join our expanding development department. We are looking for a highly motivated and driven individual that can shape the product vision of our software solutions going forward through close collaboration with end users.

As a Product Owner, you will be working alongside both the end users and the development team to ensure requirements go through the Software Development Life Cycle (using the SCRUM methodology) in an efficient and consistent manner. You will be creating and managing the Product Backlog to help shape the future development for the development team, whilst ensuring the items being worked on deliver maximum value to the company.

This role will be based in Capacitas' office in London.

Responsibilities

The main responsibilities that you will be required to take charge of are:

- Creation and maintenance of Product Backlog
- Close collaboration with end users of our software solutions to elicit new requirements for the Product Backlog
- Keep up-to-date with the ever-changing demands of the end user
- Illustration of how requirements could be implemented, through draft designing of the UI
- Close collaboration with the development team to strengthen requirements and break up into small enough implementable chunks where necessary
- TDA board meeting attendance to drive forward raised requirements into future development sprints
- Participation in appropriate SCRUM Ceremonies
- Ensure development team are developing items the way the requirements specify (3 Amigos)

Qualifications

You must hold a degree of 2.1 or higher in Computer Science or a related subject.

Requirements

The following skills are essential for this role:

- Knowledge and experience of Agile methodologies
- Knowledge of SDLC
- Strong communication skills
- A good problem solver with the ability to adapt to the challenge
- A close attention to detail in design

Desirables

Experience in the following areas would be advantageous for this position:

- JIRA Service Desk experience
- Background in UX design

Application process

Please submit your application through http://www.capacitas.co.uk/application-form, indicating 'Product Owner' as the position applied for. Applications will be dealt with on a first come, first served basis. Interviews will be held immediately.

Capacitas reserves the right to close this vacancy if a high number of applications are received. If you are interested in this role, please submit your application as soon as possible.
