LYNK2

Heart Rate Training Module

LYNK2 is a heart rate fitness tracker that can be customized and integrated into group solutions fitness applications and systems through an open device SDK. LYNK2 features a versatile, modular, pocket-sized design that can be worn in different ways - on a wristband, in an armband or in apparel.

In addition to continuous heart rate monitoring with best in class Heart Rate Technology, LYNK2 stores up to 30 hours of workout data, and uses open BLE and ANT+ HR transmission up to 100 feet.

PERSONAL ACTIVITY INTELLIGENCE™

Compatible with the PAI™ app.

HEART RATE TECHNOLOGY

Best-in-class, most accurate heart rate monitoring, 24/7.

SLEEP TRACKING

Automatically monitors sleep quality.

CONNECTED FITNESS

Bluetooth Smart and ANT+ connectivity to apps & devices.

HEART RATE ZONES

Five color LED light to indicate current heart rate zone or PAI intensity zone.

ADDITIONAL FEATURES

- One-button 'Start/Stop'
- Up to 20 hours of continuous heart rate monitoring
- Store up to 30 hours of workout data on the device
- Vibration alerts
- Water resistant to 50 meters (5ATM)

THE MODULE

The LYNK2 module has a versatile design that can be worn in a number of different ways.
