YayPay AR

Fast, Easy, and Highly Predictable Accounts Receivable Automation

YayPay is a predictive and automated AR management solution that helps financial teams perform better, manage receivables more efficiently, and get payments from clients in a more timely manner. The software combines real-time accounts receivables, analytics, and payment predictions to help businesses increase cash flow.

Automation YayPay provides automated cross team and customer communications which reduces the manual repetition in the collection process.

Collections and Payments The solution enables AR teams to manage receivables more efficiently and get paid faster.

Predictive A cloud based, predictive solution that leverages data to help organizations better predict cash flow.

YayPay makes collecting money fast, easy, and highly predictable.

Intuitive for Small Businesses, Robust Enough for Enterprises

We help credit and collections teams enhance visibility into the collections process, improve team collaboration, alleviate unnecessary manual work, and increase customer satisfaction.

Gaining AR Visibility

Better predict cash flow and payment dates using machine learning and data-driven analytics

Improving AR Metrics

Increase payment speed by up to 34%

Increasing AR Team efficiency

Leverage our intelligent CRM, workflow, and automation to increase team efficiency without increasing headcount

YayPay seamlessly integrates with multiple accounting, ERP, billing, and CRM platforms. If a pre-built integration is not available for your invoicing platform, we have an API available.

Get paid faster today!

YayPay customers typically experience a decrease in Days Sales Outstanding (DSO) in the first 30 days.

Comprehensive Dashboards & Reporting

YayPay offers unparalleled visibility in AR processes for finance teams. Key dashboard features include:

- Real-time DSO
- Dynamic, current AR aging
- Payment prediction
- Payors trends, and more.

Collections Management CRM

YayPay is a single point of record for all payor information. YayPay integrates discrete payor information from client ERP/CRM and external data sources, and updates in real time, so your business will always have the latest information.

Predictive AR Analytics

YayPay directs your accounts receivable staff to focus on the highest priority accounts based on our predictive algorithms. Prioritization has never been easier.

Automated Collections Communications

Easily automate manual collection tasks, including payment reminders, internal escalations, and more. Accomplish more each day without increasing your workload.

Complete Communication History

Communication history makes it easier for users to monitor and follow up on outstanding receivables.

Streamlined Payments

YayPay provides the ability for your customers to easily pay their invoices through our modern and secure customer statement portal.
