Overview

The Perfect Tote 500 Cable Bag offers a convenient shoulder strap, tool and connector pouches, tablet pouch, location to park cable when not in use and an attenuation reference chart included as a tag. This design also offers smooth cable payout and quick access for reel replacements using the zipper opening on the side of the bag. The Perfect Tote 500 also has rubber feet and a moisture-resistant base. This packaging option reduces waste by eliminating the cardboard box packaging of the traditional design and through optimized pallet loading with the 152.4 m (500 ft) reel inserts.
