

Category Cable Strip & Crimp Tool

CPRJ11-45

Belden CPRJ11-45 Strip and Crimp Tool is a perfect solution for simplifying telephone and data cable installations.

Category Cable Strip and Crimp Tool: CPRJ11-45

The CPRJ11-45 is a multi-function tool that allows professional installers the ability to cut, strip and crimp both RJ11 and RJ45 cable for installations that can benefit from easy one-tool applications. The tool is designed with a cable stop to ensure a perfect cable preparation each and every time. The installer has the option of 1/4" or 1/2" cable prep depending on the job requirement.

The CPRJ11-45 offers the ability to cut, strip and crimp without having to change tool or die sets rendering it easy to use without compromising quality of the connection. The tool also features comfortable grip handles to reduce operator stress.

Features:

- For termination of RJ11 and RJ45 cable
- Short Stop creates 1/4" cable strip
- Long Stop creates 1/2" cable strip
- Cut, strip and crimp without having to change tools or die sets
- Comfortable grip handle
