FutureLink® Pedestal Access Terminal

PPC®
A **BELDEN** BRAND

Features & Benefits

- Indoor or Outdoor use in a pedestal or on a pole or wall
- Patch Only model equipped with 12 SC-APC adapters
- Splice Only model equipped with one 12F/24F fiber tray
- Patch and Splice models equipped with splice tray, adapters, and fanout cable
- Easy lay-in grommets for feed and distribution cables
- Two feed cable ports (0.6-inch maximum diameter)
- 12x distribution cable grommets for round or flat drop
- 12x distribution cable strength member tie-down block
- Internal fiber routers for fast and intuitive cable routing
- Captive Security Covers use 216 tool security fasteners

- **BABA compliant options available**

Overview

The Pedestal Terminal provides flexible solutions for FTTH deployments. Three models can be used in a variety of network designs, in both greenfield and brownfield projects. Designed to fit in pedestals as small as six inch nominal diameter, the Pedestal Terminal can easily mount on a pole, a wall or a pedestal backboard with locking latch mounting bracket. Two 0.6-inch diameter feed cable ports support mid-span access deployments, dropping off one buffer tube in the terminal before moving on to the next pedestal. The distribution cable grommet supports twelve round or flat drop cables with twelve tie-down blocks.
