

Cable Caddies

CC2016B, CC2036D

Belden Cable Caddies are designed to be lightweight and durable to ensure years of trouble-free installations. They make cable storage and installation a breeze for installers.

Cable Caddies

Features

- Heavy duty, lightweight steel tubing and unique folding mechanism allows for easy fold and transport of cable caddy.
- Tough, durable powder coated finish keeps cable caddy from weathering.
- Solid steel spool support bar withstands the weight of most large spools of cable up to 100 lbs.
- Variety of models to choose from to meet the needs of all cable installations.
- Available with 6" wheels.
