Lincoln, Rhode Island, USA – January, 2016 – [Lighthouse Computer Services \(LCS\)](#) is pleased to announce that Eric Daggett joined our team as Vice President of Middleware and Security, effective January 11, 2016. Eric spent the last 7 years at IBM in multiple roles, most recently leading the Enterprise Middleware Sales Team in the Northeast.

Greg Berard, General Manager, Sales and Services: “This is an exciting time for Lighthouse. By leveraging Eric’s 20+ years’ experience in the IT services and software industries, Lighthouse will better equip our clients with the knowledge and skills necessary to compete within their respective industries. Under Eric’s leadership, we intend to expand our Middleware and Security businesses, while working in alignment with IBM’s new Hybrid Cloud Business Unit.”

Prior to IBM, Eric spent more than 15 years in software consulting and IT services, primarily with Virtusa, a Global IT Services company where he was a Director of Sales.

Eric added: “I appreciate the opportunity to lead Lighthouse’s Middleware and Security business. Lighthouse has a strong track record of successfully helping customers realize their business and technology objectives which places us in a unique position to guide them throughout their digital transformation. I’m also eager to build upon the reputation that Lighthouse has earned helping organizations safeguard their assets while preventing them from hostile attacks. Cyber threat is at an all time high, organizations have to be thinking proactively about their data protection. Lighthouse has the expertise to manage and improve our client’s Security Posture.

More information on Lighthouse: Lighthouse Computer Services is a distinguished IT solutions and services provider specializing in 6 core practices: Analytics, Security, Middleware, Collaboration, Infrastructure, and Storage & Backup. Our focus is refined to the Northeastern U.S., allowing us to deeply cultivate our technical talent and develop lasting partnerships with our clients. Visit us at www.lighthousecs.com
