Lincoln, Rhode Island, USA – June 1, 2017 – [Lighthouse Computer Services \(LCS\)](#), award-winning IT consulting and solutions provider, announced completion of the acquisition of Good Dog Labs, Inc., a privately held consulting firm recognized for their innovative work in the DevOps, Microservices, and Cyber Security space. Good Dog Labs is based in Cambridge, Massachusetts.

With extensive experience in information security, IT service management methodology, and DevOps, Good Dog Labs augments Lighthouse's portfolio of offerings. By adding industry-leading technology and deep industry expertise, Lighthouse can further help clients build, implement, and manage their critical data protection programs.

"Our aim has and always will be to provide industry leading services to our customers that help them create a converged set of information security services for fostering a proactive and strong cyber defense posture," said Aldo Pietropaolo, CEO and Co-Founder of Good Dog Labs. "We're happy to now be a part of the Lighthouse brand and continue providing top-tier service to customers."

"The acquisition will lead to even more customized solutions guaranteed to streamline operational performance and propel top and bottom line results. Lighthouse continues to invest and expand offerings to help clients better understand, prepare for, and respond to cyber threats," stated Greg Berard, GM, Sales and Services. "We are extremely excited for this opportunity to diversify and expand our capabilities to continue to drive more value for our clients."
