

# MEASURE IT

## Materials:

- Objects to measure (i.e. chair, desk, book)

- Worksheet (attached)

Curriculum Code:

Math Concept:

Use direct comparison to compare objects based on a single attribute such as length (height), mass (weight), and volume (capacity).

Number of Students:

**INDIVIDUAL**

## Directions:

Have children decide on a non-standard measuring device (eg. shoe, snap cube, hand span etc). Use the non-standard measurement tool to estimate and measure five objects in the classroom and record on the worksheet.
