

## How sustainable is your salon?

- Energy efficient light bulbs.
- Motion sensor lighting.
- Turn off hot tools, dryers, and lights.
- Energy efficient washer & dryer.
- Wash laundry in cold water.
- Do full loads of laundry.
- Evaluate the water heating system.
- Fix leaking pipes and faucets.
- Tint windows.
- Install ceiling fans.
- Limited AC use.
- Drop thermostat 7-10 degrees always.
- Add plants and greenery to salon.
- Invest in reusable drink-ware. No disposable cups.
- Begin recycling all paper and plastic products.
- Properly dispose of electronic items.
- Assign a team member to shut down computers, coffee makers, and other electronics.
- Recycle cut hair.
