

ENERGY PROCUREMENT AND SUSTAINABILITY CONSULTANT (ITALIAN SPEAKER)

Who are we?

E&C Consultants is an international energy procurement consultancy. Our clients are the biggest industrial and professional companies all over the world.

Although we serve more than 200 clients in all continents, we remain a small, young and dynamic entrepreneurial company, where empowerment, flexibility, caring, independence and transparency are what counts the most.

To find out more about us visit our website on www.eecc.eu or contact us at hr@ecc.eu

What will you do?

You will work in our office in Madrid and manage your own portfolio of clients, ensuring that we provide the best quality energy procurement services. You will collaborate with other consultants and teams around the world, but you will be the one to answer the following questions from our clients:

- How do I deal with energy market volatility?
- How do I put together a good purchasing strategy?
- How do I negotiate energy contracts?
- How do I minimize my risks?
- How do I centralize my energy purchases?
- How can I buy and/or produce sustainable/green energy?

We will help you to find answers to the above questions, what we need from you at is:

- Proficiency in Italian (native speakers ideally) and advanced English
- “Can do” attitude combined with enthusiasm and drive for new challenges
- Excellent communication skills to gain client’s trust with your knowhow and personality
- Proficiency in Windows Office Suite (Excel, PowerPoint and Word).
- Ability to use your previous professional experience to offer exceptional customer service

What do we offer you?

- In-depth training and support from energy enthusiasts
- Opportunity to work in a dynamic international environment.
- Possibilities to make a career in the exciting world of energy
- Great deal of independence in organizing your work.
- Competitive salary and all the tools needed to perform your work (laptop, phone, company car)

Questions? Contact us at hr@eccc.eu and we will be happy to share more information.
