

Business Apps That Simplify Work

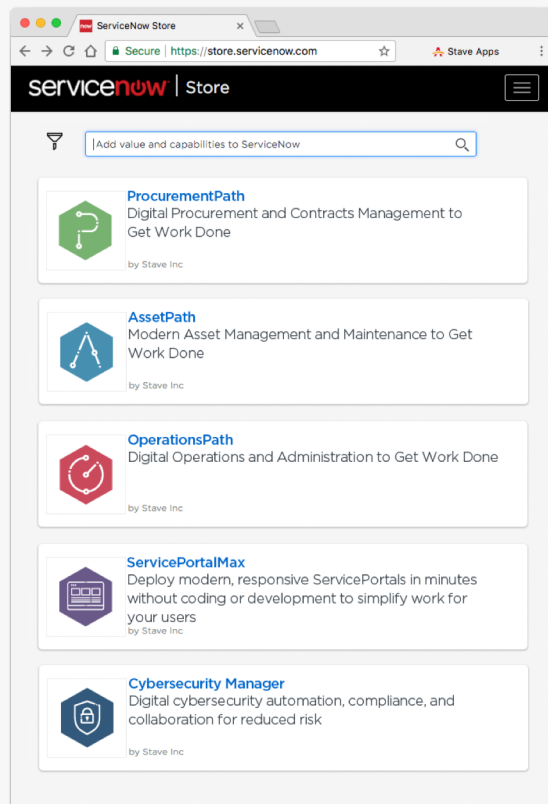

STAVE

# Fleet Management

With AssetPath

## Changing the way you use ServiceNow

We're *Software*, Not Professional Services

## Stave is the Leader in the ServiceNow Store

Stave applications extend the ServiceNow Platform to help you maximize your investment in the platform. Our applications pick up where ServiceNow left off, to provide a true platform experience for different business units across the organization.

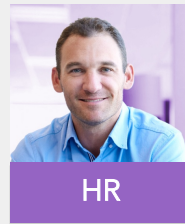

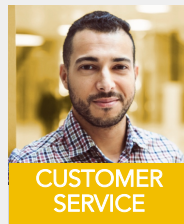

- ✓ 100% Dedicated to the ServiceNow Platform
- ✓ 100% Certified Developers

Scalable

## Stave Benefits

Our Value to Every Customer

### Rapid Deployments

With Stave Applications, you are able to get up and running a lot quicker than a traditional ServiceNow custom application or independent software purchase.

### Simple Configuration

No more customization. Stave Applications use existing ServiceNow technology so ServiceNow administrators can make needed configuration changes with just a few clicks.

### Certified & Scoped

All of our applications are scoped and certified by ServiceNow. This means you get managed updates and support included with your purchase. Your application will upgrade when you upgrade.

AssetPath

End to End Fleet and Asset Management

## AssetPath Fleet Features for Managers

Manage Your Fleet

### Fleet Maintenance

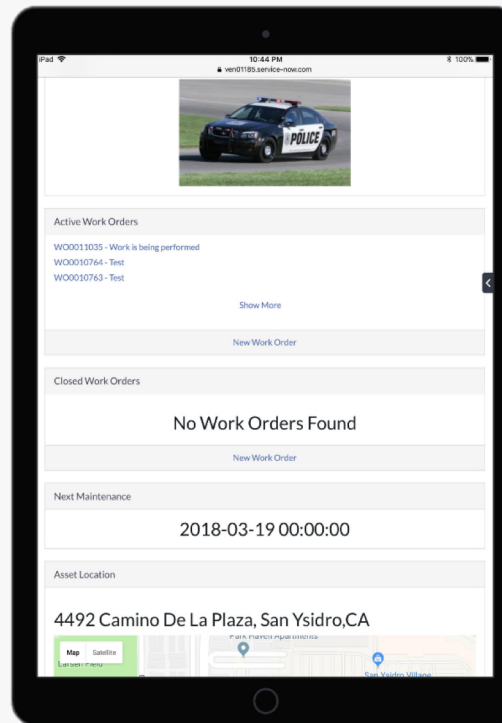

Manage your fleet's maintenance needs by scheduling maintenance or requesting ad hoc maintenance.

### Fleet Readiness

Gain a comprehensive view of your fleet's availability, location, configuration, status and ownership in real time.

### Fleet Inventory

Achieve total vehicle inventory management visibility by utilizing AssetPath's automated inventory tracking allowing you to stay organized, improve efficiency and lower costs.

### Vehicle Records

The vehicle record maintains all of that particular vehicle's demographic and statistical data. Basic information such as the vehicle make and model, license plate number, VIN number, and mileage is automatically captured in the system.

## AssetPath Fleet Features for Drivers

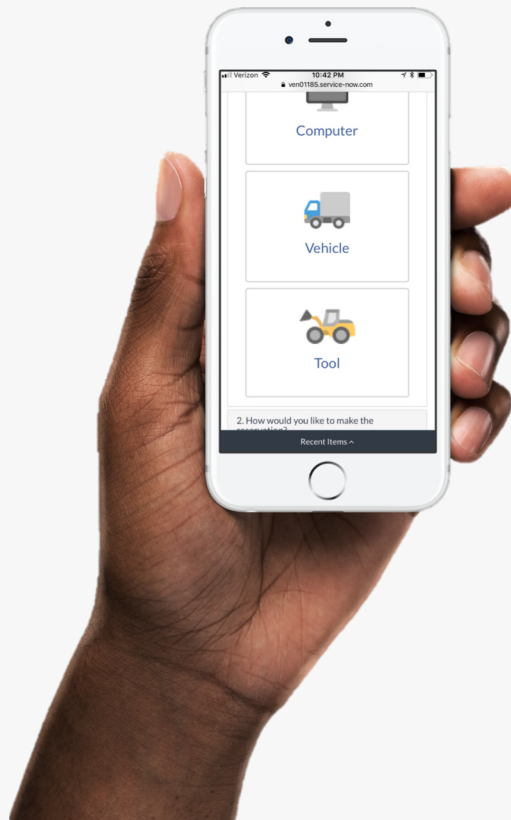

Fleet Self Service

### Self Check In / Out

Users can check in and out vehicles themselves through the system. Plus they only have access to those vehicles that they are allowed to drive.

### Fuel Up

User can fuel up a vehicle and record the cost, number of gallons, fuel type, and even attach the receipt for each fuel purchase to that vehicle record, which can be tracked and ultimately reported on.

### Reservations

No more scheduling vehicle reservations via multiple email chains, spreadsheets, or white boards. With AssetPath, drivers can do it themselves through the system.

### Request Maintenance

AssetPath utilizes an intuitive, user friendly portal for users to submit vehicle maintenance requests with the click of a button.

## AssetPath Benefits

Our Value to Every Customer

### Out of the Box

Full Functionality on Day One

### Mobile

Responsive to be compatible  
with all device types
