## Changing the way you use ServiceNow

We're *Software*, Not Professional Services

# Stave is the __Leader__ in the ServiceNow Store

Stave applications extend the ServiceNow Platform to help you maximize your investment in the platform. Our applications pick up where ServiceNow left off, to provide a true platform experience for different business units across the organization.
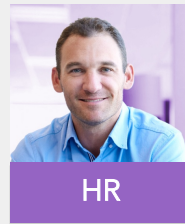

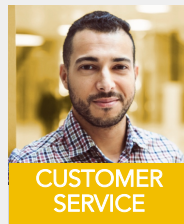

- ☑ 100% Dedicated to the ServiceNow Platform

## Stave Benefits

### Rapid Deployments

With Stave Applications, you are able to get up and running a lot quicker than a traditional ServiceNow custom application or independent software purchase.

### Simple Configuration

No more customization. Stave Applications use existing ServiceNow technology so ServiceNow administrators can make needed configuration changes with just a few clicks.

### Certified & Scoped

All of our applications are scoped and certified by ServiceNow. This means you get managed updates and support included with your purchase. Your application will upgrade when you upgrade.

## ProcurementPath

Contract Management, Vendor Management, Procure-to-Pay

## ProcurementPath Features for Procurement Groups
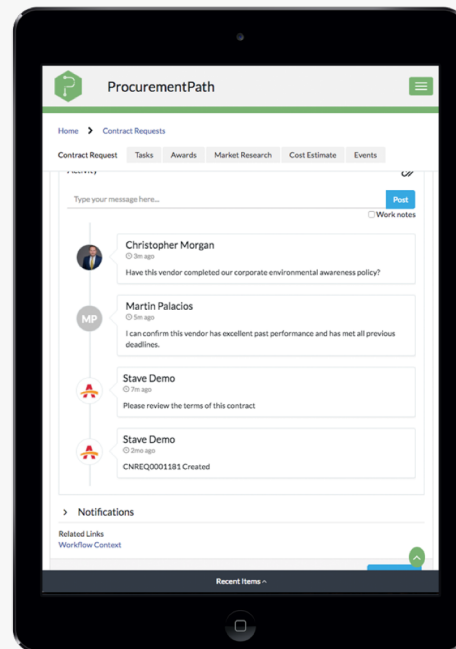

Contract Management

## Lifecycle Management

ProcurementPath's contract management modules manage the process of controlling, coordinating, and streamlining all stages in the contract lifecycle from idea to re-compete.

## One Location

All contract documents, artifacts, and information is stored in a central location which everyone can access. This ensures the team is always working on the latest version and can find everything they need

## Visual Workflows

Design and automate approval chains, task routing, and notifications in a visual drag-and-drop view. Enforce process governance on your procurement activities.

## Post-Award Management

Understand and manage your contract's costs, performance, burn rate, and purchase orders allocation from award to close-out.

## ProcurementPath Features for Procurement Groups

Vendor Management

### Vendor On-Boarding

Automate the vendor on-boarding process, establishing a single, standardized, and easily accessible process for introducing a potential provider into your vendor database.

### Vendor Off-Boarding

Automate the vendor off-boarding process, ensuring all tasks are closed out and pertinent artifacts removed from your vendor database.

### Sourcing

Manage the sourcing lifecycle, from supplier selection and pre-qualification through online bidding, analysis, and award all in a single system.

### Performance

Consolidate vendor performance reviews into a consistent, manageable process that ensures visibility over the lifespan of the entire vendor relationship.

## ProcurementPath Features for Procurement Groups

Procure-to-Pay

### Purchase Planning

ProcurementPath ensures purchase requisitions are automatically routed to the appropriate approvers and then converted to purchase orders as necessary.

### Invoicing

Strengthen supplier relationships, use resources more effectively, capture early payment discounts, increase compliance, and reduce risk with automated invoice workflows.

### Receiving

Automate the receiving process of goods or services. Upon delivery, match any purchases orders with expected quantities and reject unsatisfactory orders.

### Reconciliation

Match expected vendor orders and payments across both purchase orders and invoices to ensure alignment. Automate the governance of payments being associated with vendors, contracts, orders, or projects.

ProcurementPath

Pending Approval

## ProcurementPath Self-Service Features

### Increase Visibility

Have the ability to track the status of their procurement or contract requests as they go through the approval process. This ensures you are aware of current and pending steps.

### Self-Service Requests

Easily request services from your procurement and contracts departments by utilizing ProcurementPath's intuitive web portal interface. Eliminate the need for emails to initiate requests.

### Manage Your Tasks

No more guessing on what's required of you throughout the process. ProcurementPath provides an automated task management system to guarantee nothing gets lost, and no deadlines are missed.

### Communicate

Collaborate with all your teammates and get a clear understanding of who is involved in all contract and procurement activities. This allows you to get the support you need from the right person at the right time in the process.

## ProcurementPath Benefits

Our Value to Every Customer
