

M1002

American Ordnance LLC, a company of Day & Zimmermann, produces the Cartridge 120mm M1002 ammunition for the U.S. Army and Marines.

USE: This cartridge is a Multi-Purpose Anti-tank, Target Practice with Tracer (MPAT-TP-T) round for use in the 120mm smooth bore M256 cannon.

DESCRIPTION: This low cost design provides visual, weight and ballistic match similar to the M830A1 tactical round. The design also incorporates a nose switch to enhance soldier training.

SPECIFICATIONS:

Projectile: Training w/ Simulated Nose Switch
Propellant: M14
Muzzle Velocity: 1,427m/s

Tank, 120mm Ammunition

Multi-Purpose Anti-Tank, Target Practice With Tracer
