

# M933A1 / M934A1

Day & Zimmermann produces the M933A1 and M934A1 High Explosive 120mm Mortar Cartridges for the U.S. Military and other State Department approved customers.

**USE:** The M933A1 and M934A1 High Explosive Cartridges are designed for use with the M120 and M121 120mm Mortar Systems. These cartridges are designed to be effective against personnel, bunker, and light materiel targets, providing both blast and fragmentation effects.

**DESCRIPTION:** The high explosive steel projectiles are loaded with Comp B explosive. The M933A1 and M934A1 are similar with the exception of the fuze. The M934A1 features the M734A1 Multi-Option Fuze, which can be set to function in Proximity, Near Surface Burst, Impact, or Delay Mode, while the M933A1 is fitted with the M783 Point Detonating Fuze.
