

# STORAGE TANKS

## Fabrication Services

Fisher Tank Company provides expert storage tank design and fabrication services. We are equipped to support your tank project with engineering and fabrication, including plate blasting and priming. Our fabrication shop teams are skilled in preparing your fabricated tank for shipment to your overseas project site. For many of our customers, our fabrication only services offer an economical way to ensure the tank design and materials meet their specific project requirements and quality expectations.

We've been building tanks since 1948.

Depend on us.
