

Wixie Certified Educator Checklist

The Wixie Certificate Program is designed to provide educators with an opportunity to demonstrate their expertise and understanding of meaningful learning with Wixie. These are the tasks you will need to complete.

- Create and share a URL to an example of a high-quality student project for a lesson plan on this [list of Creative Educator lessons](#). Link to Wixie project: _____
- Write a lesson plan ([using the Creative Educator model](#)) that includes detailed information to help other educators implement a Wixie lesson at [Webb's Depth of Knowledge level 2 or higher](#) in their own classrooms. Link to online document: _____
 - Write a Task that provides a hook, summarizes student work, and demonstrates how it connects to the world beyond the classroom.
 - Write an Engage section that includes information on how you can provide an engaging and powerful introduction to the content and task.
 - Write a Create section that includes a detailed outline of the process students will use for creating their work.
 - Write a Share section that includes ideas for meaningful sharing of student work with the world beyond the classroom.
 - Identify specific standards and learning goals for the lesson.
- Design a rubric or checklist using Wixie's assessment tools that provides clear expectations for students and explains what constitutes excellence.
- Create a high-quality example (or two!) of student work for your lesson. Link to Wixie project: _____
 - [Attach your rubric](#) or checklist to the high-quality example.

When all tasks are complete, complete the [Wixie Certified Educator application](#).
