DATA VISUALIZATION KIT

Data-driven decision making just got easier.

That's because **Freedonia's Data Visualization Kit** is now included with each Freedonia Industry Study. In addition to the full PDF report, you will now receive charts, graphs, images, and infographics as PowerPoint slides. We will also send you Excel tables that contains all the market size and forecast data from the report.

Trusted Insights for Superior Results

No matter what file or format you prefer to use, each report license provides detailed qualitative and quantitative insights based on proven methodologies:

- Market size estimates, along with historical trends and growth
- Key economic indicators
- Market drivers and restraints
- Sales by product and market
- New product activity
- Pricing trends
- Market share estimates
- Mergers and acquisitions
- Distribution deals and partnerships
- Competitive strategies
- Demographic data
- Regulatory issues and government initiatives
- The role of technology in the market

Convenient and Easy-to-Use

These upgraded features can help you accomplish a range of important tasks more quickly:

- Drop ready-made slides into presentations
- Upload data and figures into your company's internal materials
- Compare Freedonia's data to other sources
- Organize and modify data to fit your company's standards
- Incorporate findings into filing documents such as 10-K or S-4 forms
- Create an archive for consistency in year-to-year planning

An Exceptional Customer Experience

Keep in mind that at Freedonia, we offer you much more than just data and analysis. We also provide you with ongoing support from our experienced team of account managers and industry analysts. You can always follow up with questions about the research or request additional data points.

From end to end, we will work to ensure you have the resources you need to drive your business forward.

About The Freedonia Group

The Freedonia Group was among the leading developers of the industrial market research industry and has been in business for over 30 years. In that time, our research team has developed a comprehensive approach to data analysis that takes into account the variety of industries we cover and the evolving needs of our customers.

Every industry presents different challenges in market sizing and forecasting, and this requires flexibility in methodology and approach. Freedonia methodology integrates a variety of quantitative and qualitative techniques to present the best overall picture of a market's current position as well as future outlook.

Freedonia Industry Studies publishes about 100 studies per year on a variety of industry and consumer topics including consumer goods, construction and building materials, equipment and components, motor vehicles and transportation goods, chemicals, polymers, coatings and packaging. Industry Studies are comprehensive reports ranging in about 100 to 300 pages and provide product and market segmentation, forecasts and competitive analysis.
