Retail Management Solutions Announces New Partnership and Enhanced Data Reporting Tools Powered by Mevesi

LACEY, WA, MAY 24, 2017 - Retail Management Solutions (RMS), makers of Star-Lite and Star-Plus Point-of-Sale solutions for pharmacies, today announced that their POS solutions now integrates with the Mevesi POS reporting platform.

Mevesi POS is a comprehensive platform that provides multidimensional reporting, analytics, dashboards, charts, and visualizations of pharmacy point of sale data. This data allows pharmacists to instantly analyze customer and category trends to make better operational and marketing decisions.

“Though our Star-Plus and Star-Lite POS solutions for pharmacies offers some of the strongest reporting capabilities in the industry, integrating our solutions with Mevesi takes our customer’s data to the next level. Any RMS customer who wants to garner a better understanding of what is happening in their store from both a retail and prescription sales perspective will benefit from this new integration,” said Mike Gross, VP of Sales and Marketing with RMS.

With the 2 systems integrating, there are over 30 different data points utilized to generate ad-hoc reporting within the Mevesi POS platform. Data points such as:

- Transaction information
- Prescription information
- Customer information
- Product information
- Accounts Receivable information, and
- Sales tax information.

“Today’s pharmacies require advanced tools to spot business opportunities. They similarly require the proper information to be able to measure performance and analyze their business without taking too much time from their day. Mevesi has been celebrating their technology partnership with RMS Point of Sale system for several years now; and our clients find it has been an improvement to their business,” said Omar Sosa, President of Mevesi

“Directly working with Mevesi allowed us to bring this compelling integration to market with many powerful reporting tools. The end result will allow a pharmacy owner to make better business decisions with the data their point-of-sale solution is collecting every day,” said Gross.

ABOUT RMS

Retail Management Solutions is the industry leader in pharmacy point of sale technology for retail and outpatient pharmacies. Having installed more POS systems in the independent and outpatient pharmacies than any other company, RMS has become the industry standard, and is proud to be the only Point-of-Sale provider in the nation that focuses strictly on the pharmacy market. Because of this singular focus, and the fact that the owner and CEO grew up working in his father’s pharmacy, RMS continues to develop pharmacy POS software and hardware capabilities for pharmacies only. RMS was the first to market with electronic signature capture for HIPAA signature compliance, and was the first to market with a fully capable, mobile Point-of-Sale device, EvolutionPOS, for the pharmacy market. These are just a few examples of how RMS will continue this dedication to improving pharmacy efficiency, growth, and profitability. Everything RMS does can be measured by their mission statement, "Making our clients the most profitable and customer centric in the industry."
