SILVERSTEIN INSTITUTE

Florida Ear and Sinus Center

ENT specialists Drs. Wazen, Silverstein and Rosenberg along with laryngology specialist Dr. J.P. Gniady.

THE SILVERSTEIN INSTITUTE is a comprehensive ear, nose and throat practice offering advanced treatment for hearing loss, tinnitus, Meniere's Disease, acoustic neuromas, dizziness and balance problems, nasal and sinus diseases, allergies, and disorders of the voice, airway and swallowing.

Herbert Silverstein, M.D., F.A.C.S., president and founder, is a leader in otology/neurotology, developing groundbreaking diagnostic and surgical procedures for ear and balance disorders. He has trained 42 clinical fellows and published extensively. His many honors include the Prospero Meniere Society Gold Honor, the American Otological Society Award of Merit and the American Academy of Otolaryngology Presidential Citation. Dr. Silverstein is also an accomplished jazz musician and composer, and music proceeds are donated to the ERF.

Seth Rosenberg, M.D., F.A.C.S., has pioneered techniques for minimally invasive ear and sinus surgery, adding to the treatment options available at the Silverstein Institute. He was honored with the Triological Society's Mosher Award for

"The Natural History of Acoustic Neuromas," and was one of the youngest members inducted into the American Otological Society.

The Silverstein Institute is developing groundbreaking diagnostic and surgical procedures in otology.

neuropomas, cochlear implants and treatment of dizziness and balance disorders. He has published extensively on these topics and is a sought-after international speaker. He has been honored by the American Academy of Otolaryngology with both the Honor Award and the Distinguished Service Award. In 2012, Dr. Wazen launched the Ear Research Foundation's Help Us Hear program to help restore hearing to those without financial means.

Jack Wazen, M.D., F.A.C.S., has pioneered treatments for single-sided deafness and complex cases of hearing loss. He specializes in procedures of the ear and skull base, acoustic
