

Intimate Care Documentation

We are re-initializing our Intimate Care documentation for our Division.

When you file the **Health History Assessment**, you will be taken to OM to enter the **Intimate Care** order details. A query link from the **Health History Assessment** in Nursing/Surgery has been set up to trigger an order to clarify the patient's wishes related to Intimate Care. Enter the providers mnemonic and use the source of 'Z'. This step is no different than entering any other order. The details of the order are required.

On the status board there is now a column for Intimate care. The 1st answer (Y/N) is displayed. The 2nd answer is also there, but needs to be clicked on to see the entire comment.
