
Role Description

Please describe the role, not your Job Description; you will be working as within an HCA facility. The role may be a portion of your normal company responsibilities but not the full range. HealthTrust needs to ensure that your classification is specific to HCA role classifications and not your job title. If you have any questions, please contact HWS. **The entire document must be completed.**

Examples:

Clinical Liaison for a Medical Device company would be classified as an HCIR Supplier Representative.

An Admission Nurse who enters the hospital due to a referral may be classified as a Community Liaison.

Description of your Role and products that may be relevant for your job:

Which Facility? Divisions?
