

GLOBAL
PRADER-WILLI SYNDROME
REGISTRY

We invite you to login to your account in the Global PWS Registry and update the answers to surveys. Some symptoms may have improved, new milestones may have been reached, and there may be new challenges. Many things can change including medications, therapies, and schooling. Capturing each individual's story of PWS contributes to the power of the data in the Registry.

Using the instruction below, you will be able to login, view your previous answers to surveys, and make any changes or updates!

Please contact us at info@pwsregistry.org with any questions or concerns.
