

WHAT DOES A 'HEALTHY' BALANCE SHEET LOOK LIKE?

A healthy balance sheet is one in which...

1. ...the net position on the balance sheet is strongly positive

2. ...the strength and quality of the assets versus the liabilities are verifiable and current

3. ...the debtors' collection is repeatable and within payment terms

4. ...the creditors are not extended beyond reasonable payment terms

5. ...liabilities and obligations are recorded and accounted for.
