**Welcome to MemberHub.** As a group leader, you are part of an amazing army of volunteers. We know it's a challenging job – our company is led by parents of young children who've spent countless nights in school gymnasiums trying to solve the age-old problems facing our schools. How to better engage parents? How to raise more money? How to recruit more volunteers? How to make it easier for your school to coordinate a hundred little things?

**We know that running an organization is hard work.** And that's why we started MemberHub. Our software is designed to make the life of volunteer leaders like you a little easier – one place where you can manage everything including creating newsletters, managing volunteer signups, processing donations and sales, tracking membership dues, and filing necessary paperwork.

**You know your organization better than anyone.** But we intimately understand the issues that volunteers like you are facing. MemberHub is working with almost 10,000 PTAs & other membership organizations across the country to help solve those problems and make their groups more successful.

**You may be wary about adopting a new software solution.** You may already have too much on your plate, or you may not immediately see the value in doing anything different from what you're currently doing. We get that. And that's why we've put together plenty of training and support materials to help make the transition as seamless as possible. On the pages that follow, you will find an overview of MemberHub's benefits for every organization leader. If you still have questions, please reach out to us: <https://memberhub.com/contact>

We can't wait to see how MemberHub helps you and your organization succeed.

# PTA UNIT FAQs

## **Why did the state pick MemberHub?**

MemberHub is a company that wants to support the PTA mission. The software has tons of capabilities that are built specifically for PTAs. E-stores, fundraisers and communication tools, all integrated in the state membership system. The state PTA is also switching to MemberHub so it can widely & inclusively provide all PTAs with the same level of efficiency and success. Because not all PTAs can afford to pay for technology solutions, your state is making a commitment to deliver technology to every unit in the state.

When all units switch to MemberHub, the state PTA can consolidate its member database to better serve the PTA mission. Practically, that means your state is better able to mobilize and advocate on behalf of education and children when everyone is using one consolidated system.

MemberHub not only provides a full suite of PTA-management tools, but also provides capabilities to help you engage families and raise funds. MemberHub is the market-leading company for PTAs, and your state is excited to bring this resource to you.

## **What are the hidden costs? What are the transaction fees?**

MemberHub covers development costs by charging an industry-standard nominal platform fee of 1.3% plus \$0.20 on credit card transactions.

WePay, MemberHub's payment-processing company, charges MemberHub 2.2% + \$0.30 per credit card payment. So the total charge is 3.5% plus \$0.50 per transaction.

The ACH fee for dues remittance is just \$1, no matter how large the transaction -- almost the same price as a stamp. Currently, ACH is only for remitting state dues, but MemberHub is looking to expand its use in the future. It's a great way to save money on fees for any larger transactions.

Additionally, you can choose who absorbs the fees -- the PTA or the buyer. Almost all PTAs that MemberHub works with pass the fee on to the buyer. For example, a unit with \$10 PTA dues would charge buyers \$10.85, and the PTA keeps \$10. Other online payment processors charge PTAs for the transaction, so you'll save money with MemberHub.

## **How does MemberHub protect data?**

MemberHub never sells membership lists or shares personally identifiable information with any outside party. MemberHub doesn't communicate directly with PTA members. Instead, the company reaches out to site admins about features, products & services, and provides them with tools and support to better engage school families, grow membership, and raise funds. For more information, please see MemberHub's:

- Terms of use ([https://app.memberhub.com/legal/terms\\_of\\_use](https://app.memberhub.com/legal/terms_of_use))
- Privacy policy ([https://app.memberhub.com/legal/privacy\\_policy](https://app.memberhub.com/legal/privacy_policy))

## **Are there privacy settings?**

Yes. Only people who are approved can get into the site. PTA site admins have complete control and can grant admin access. Parents can manage all their personal information and notification settings.

## **What payment processor does MemberHub use?**

MemberHub uses WePay, a Chase Bank-owned company, to process all transactions. WePay is a trusted platform to accept payments online. WePay handles payments for a variety of purposes, such as donation campaigns, online merchants, events, and more.
