

At 24-7 inc., when inputting data, printing, sending mail/email, or developing a website, our employees are aware of the importance of protecting the personal information of customers and users. The below points show our personal information protection policy, and how we actually implement, use, and improve constantly our personal information protection management system.

1. We will only acquire and provide personal information by appropriate means with only necessary information for HR management within a limited scope. Furthermore, necessary measures are taken to ensure that personal information are not handle beyond this limited scope.

2. We are constantly improving our personal information protection management system through the adoption of security measures to prevent any unauthorized access to personal information or loss, alteration, leak and destruction of personal information.

We comply with laws, regulations and other standards regarding the personal information we held.

3. We will reply appropriately and in a timely manner to any complaints or consultation regarding personal information.

4. The personal information protection management system is revised quickly and appropriately based on the social and individual needs or on the latest IT technology trends. We are improving it constantly.
