- Designed for ships-gear or overhead cranes with a single point hook.
- Simple "hook-on" style with no cable to reeve.
- Unit is shipped complete with transmitter and battery charger, ready to use.
- State of the art electronics ensures safety from outside radio interference
- Lip and bowl plates are made of T-1 (514) steel for greater wear resistance.
- One piece manifold reduces hydraulic hoses
- Simple hydraulic system eliminates motors and pumps
- Back up manual rope pull is included
- Quick cycle times with non-jarring opening motion
- Unit has the ability to be partially opened in mid-air for filling hoppers, trucks, etc. of varying sizes
