environmentally conscious

our porcelain factories are certified according to ISO 14001 and ISO 50001 : international standards for environmental and energy management systems

all decorated porcelain tested and compliant with prop 65

in our porcelain factories, we have installed energy efficient kilns that lower energy consumption by a third and reduce CO2 emissions

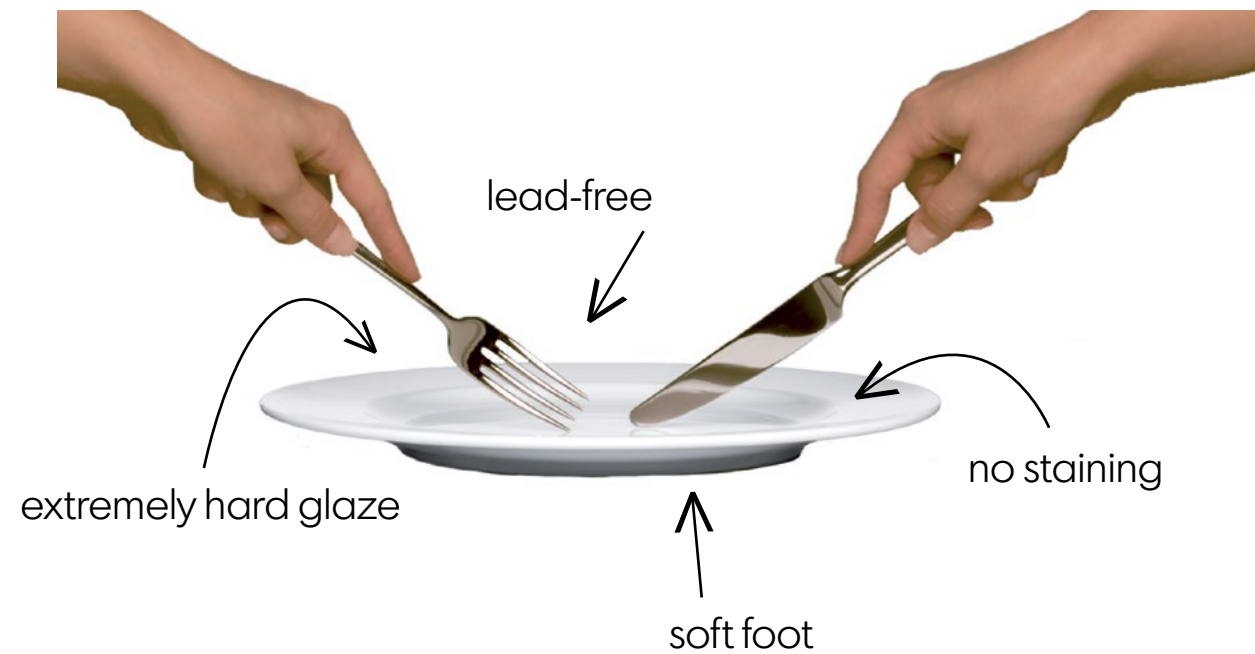

sustainability

18/10 stainless steel is extremely durable, and doesn't have to be replaced as often, cutting down on unnecessary waste!

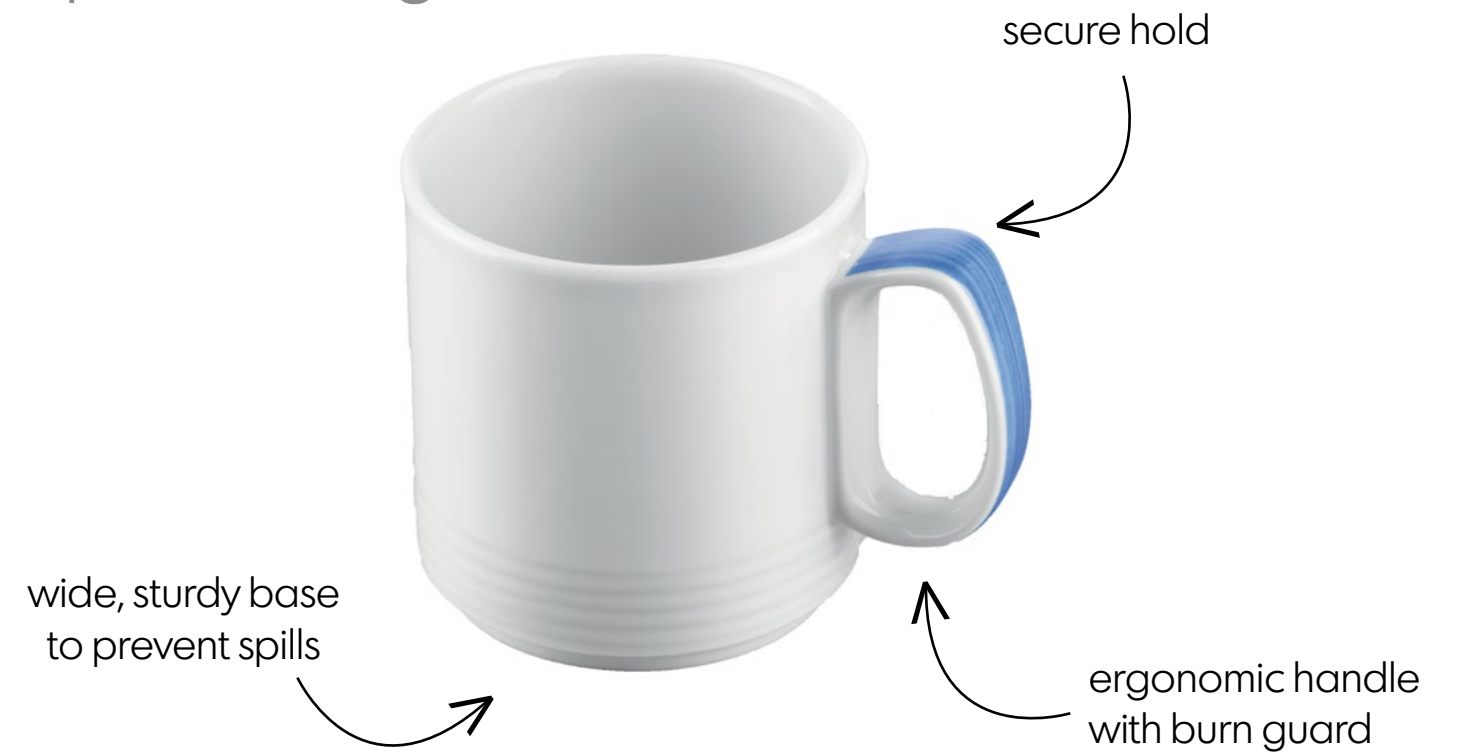

our cutlery brands are replacing their plastic bags with recyclable paper ones for all of their cutlery, reducing their plastic consumption by 40%.

For elderly people, an elevated dining experience is very important, especially if they live in a senior residence. Meal variety is as important to the well-being of residents as the attractive presentation of meals and a table that has been prepared with care.

Bauscher offers a wide range of attractive collections for a variety of meal concepts and budgets. A fine-tuned collection with pieces that can be used in many different ways will assist in shaping the entire daily routine in a senior residence.

You can also show your care for your residents by choosing a beautiful decor or adding the logo of your establishment.

People living in senior and assisted-care residences often have restricted mobility and perception. Therefore, their ability to feed themselves independently and safely is one of the special challenges to providing optimum care.

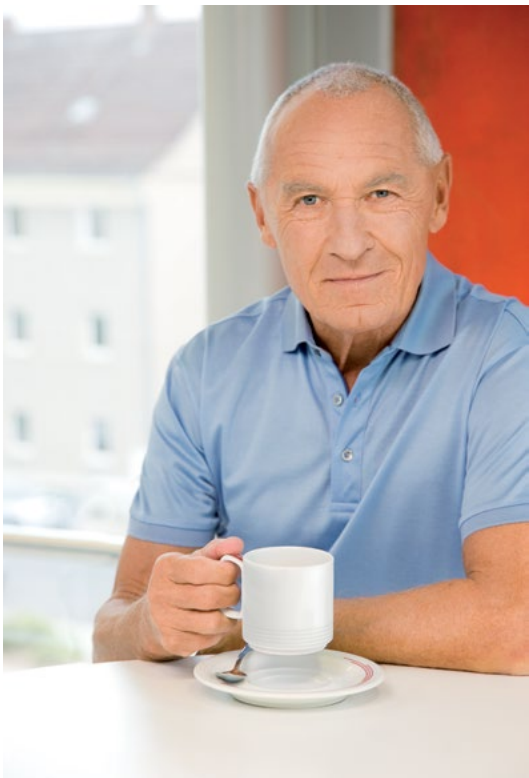

Dialog Invita and Dimension Invita:
These special collections by Bauscher are available in embossed and smooth versions to meet the particular requirements of these residents. They offer an appealing design and ergonomic form for enjoying meals. These specially designed items win over users by offering unique, functional features. They make eating easier for people with physical limitations, which in turn enables them to be more active and participate more fully in life again.

color can do more than just look good

Well-being creates quality of life. For people with restricted mobility, the richly colored patterns of Bauscher don't just bring a cheerful mood to daily living, they also emphasize the important functional aspects of Bauscher's collections.

Colorful patterns have important added benefits, especially for people with impaired vision. Soft dots, lively structures, or delicate brush strokes in different colors create stark contrasts and provide an orientation aid for perceiving and handling cups, mugs, and plates. This makes people less dependent on help from others and allows them to feel that their needs are being taken seriously. In turn, it gives people more confidence and a secure feeling when eating.

Easy handling thanks to functional details...

- 1. Steady**
A double-well foot rim keeps a firm grip on cups and mugs and increases stability.
- 2. Secure Hold**
Mugs with extra-large, strengthened handles reduce radiant heat loss. A finger support provides a more secure hold.
- 3. Eating Made Easier**
The slightly elevated plate rim makes it easier to push food onto the fork or spoon.
- 4. Steadiness**
The wide plate foot ring prevents tipping when leaning on the plate rim.
- 5. Easy to Grip**
An elevated plate rim makes it easier to grip.

Better orientation...

- 1. Easier to See, Easier for Eating**
Colors help people with poor eyesight to perceive functional details.
- 2. Emphasizes Perimeters**
The colorful patterns indicate where the well of the plate ends, and makes it easier to push food onto the fork or spoon.
- 3. Always Ready to Grip**
The patterns provide an orientation and make it easier to grip the handle.
- 4. Well-being**
Attractive decor and bright colors bring a cheerful and positive atmosphere to daily living.

dialog

- Can be integrated into most standard systems
- Highly resistant to breaking
- Stackable
- Rounded handles of mugs and cups permit easy gripping

in room dining

Residents who are served meals in their rooms enjoy an inviting presentation. The perfectly fitting Bauscher solutions make it easy to create attractively presented meals in limited spaces and transport them without spilling.

The sturdy plastic covers offer hygienic protection. They prevent food from drying out, which maintains nutritional value and good taste. Our covers combine perfectly with Bauscher porcelain to create a functional unit. This offers flexibility, especially if meals need to be transported over a long distance. Another plus for hygiene: Bauscher's high-quality porcelain does not have any hidden edges or corners that could collect dirt.

attractive, safe to transport, and hygienic

1. Cooling Cover

A special coolant incorporated into the cover keeps meals cool for longer.

2. Cover with Stacking Spacers

Better air circulation for quick drying after washing, and for stable stacking.

3. Stackability

Universal plates with covers can be stacked easily for transport, thus making optimal use of tray space.

4. Cover with Textured Surface

Signs of wear are less visible.

well-equipped

modern rustic natural, airflow, & PN

- PN offers perfectly coordinated, stackable articles for ideal space-saving uses.
- Recessed grip in the stacking edge of Airflow is easier to hold and enables faster drying
- Modern Rustic decor adds a trendy flair to functional and ergonomic pieces

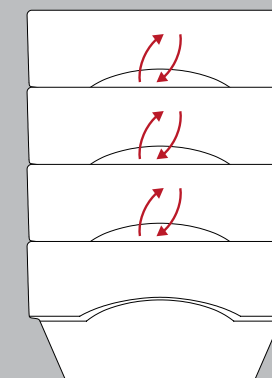

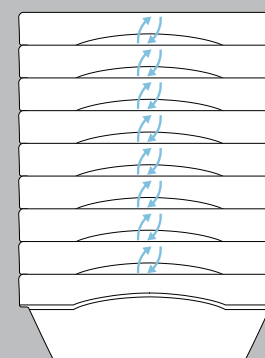

airflow

The curved recess grips create a narrow vent in the stacking edge when stacked. This allows an easier air exchange and supports fast drying of the items after rinsing.

= air exchange

cold

hot

available in soft neutral colors,
or a classic white

Bauscher is now making your meal distribution even more effective and more economical. With Airflow, the specialist for professional porcelain in the hospital and care sector proves once more its innovative drive:

- Ergonomic design: easier handling when portioning and cleaning
- Improved air exchange: shorter cooling and heating times when stacked
- Smartly dimensioned: compatible with all common active / passive systems
- Precisely fitting lids: hygienic protection
- Long durability: quality Made in Germany
- Sustainable: ISO-certified partner
- Planning security: long-term availability for reordering

cafeteria • vending

Until now, customers paid for food portioned out by themselves or kitchen staff, using only their eyes to estimate whether or not the serving size on the plate or bowl was correct. The Bauscher Scale collection optimizes this process in front of and behind the counter through the use of taring. This enables the weight of the servings to be recorded fairly and accurately on the cash register.

The way it works is easy: the tare weights of the various Bauscher porcelain articles are determined. These weights are stored in a program on the cash register. During the payment process, the cash register scale subtracts the weight of the plate from the total weight of the selected food portion to yield the accurate portion weight for charging with one-gram accuracy.

Investment in these precision technologies pays off quickly for the operator. With the Scale system, large-scale caterers gain more control over food usage, decreases food weight, and lowers material consumption, all of which result in higher ROI.

In the scale 1 collection, all units of an article have the same weight. For example, all 9.8" plates weigh 700 grams (+/- 5 g) and all 4.7" bowls weigh 225 grams (+/- 5 g).

Scale 1 offers two sets (a and b) each with four tared porcelain items. They can be used in diverse ways in a variety of large-scale catering food concepts.

Both of the Scale collections have appealing, functional designs that allow for fast food dispensing:

- Generous bowl proportions for easy filling
- Functional plate design for secure stack gripping
- Clear distinction between rim and well to prevent contact with the food
- All articles are space-saving, safe, and tightly-stacking

Nothing beats a hot, aromatic cup of coffee or tea with that freshly-brewed taste. With all sorts of designs ranging from traditional stainless steel to brightly-colored plastic, Emsa offers a truly eye-catching addition to any laid table. The insulating action of these vacuum jugs keeps coffee, tea & co. tasting delicious and (most importantly) hot for up to twelve hours. For warm days in the sun, Emsa vacuum jugs keep refreshing beverages cold for up to 24 hours, making this a year round must have for your kitchen.

eleganza

Stainless steel vacuum jug with a double-walled, stainless steel liner. Timeless and elegant with a slim design that fits any table or buffet. Ergonomic handle with an easy-open lid; ideal for professional use.

auberge

A practical vacuum jug that is optimal for serving hot and cold drinks. Features an aroma diamond glass liner, a patented Quick Tip closure for one-hand use, a non-drip spout, and an ergonomic handle.

soft grip

Stainless steel vacuum jug with a non-slip safe stand and Soft Grip handle. Slim and elegant for a space saving design.
