SEQUENCE

When combined with frames M and S, frame L creates a square (the same applies to frame M in combination with S and XS), thereby re-establishing symmetry.

In temptation's way ... A buffet presented with SEQUENCE catches the eye and stimulates the palate. The striking shapes of the intelligent buffet concept and the multitude of ways in which the pieces can be arranged set entirely new benchmarks in food presentation. The innovative combination of trapezoid modules will channel a great sense of energy through your dining and reception rooms. As you would expect, all the individual items in the range are coordinated, which gives your staff great creative freedom when designing and combining table settings. The SEQUENCE collection will make your buffets and dinners an unforgettable experience!
