unsurpassed quality without compromise.

Enterprising users in the gastronomy and hotel segment place their trust in Tafelstern. Around the world, the outstanding design of Tafelstern’s shapes and patterns are highly appreciated, just as much as their particularly long service life and durability.

The Tafelstern brand embodies contemporary table culture in all areas of the gastronomy sector. Guests will experience this whenever first-class cuisine, attentive service and the creative presentation of fine foods on the finest porcelain meet.

Tafelstern’s porcelain is fired at over 2550 °F, resulting in a hard glaze that:

- makes our porcelain **extremely resistant to metal marking, caustic solutions, and shocks**
- enables it to retain its luster while being **hygienically safe**
- protects decorations and color, which sink into the glaze and fuse with the porcelain, making them **permanently protected**

Even after the thousands of wash cycles, our porcelain will look as new as it did on the first day.

We have the skill required to design porcelain that satisfies the demands of perfect catering tableware and completely fulfill the needs of our customers: **design, functionality, durability, stackability** and **breakage resistance**. Opting for our porcelain means putting our experience and quality to work for you.

strong and sustainable

Tafelstern’s porcelain is beautiful and practical, with products that boast a **high chip resistance** and **stackability**, while also being **dishwasher and microwave safe**. As the winner of many accolades, such as the Interior Innovation Award and the German Design Award, Tafelstern is innovative, with collections of various styles that are ideal for changing food trends and formats.

Tafelstern is socially responsible and continuously optimizes all processes and follows the principle of environmentally sound operations:

- Porcelain is made of just a few **natural raw materials**, and has an outstanding environmental balance
- The extremely robust tableware is manufactured with **energy-efficient, resource conserving processes**
- New firing technologies **lower energy consumption** by a third and reduce CO2 emissions
- All ceramic components within the production waste are **completely recycled**

For sustainable success: porcelain Made in Germany.

The issues of environmental protection, resource conservation and energy efficiency are firmly anchored in our corporate culture. The sustainable success of our **environmental management** system has also been underscored by our certification according to the most strict international manufacturing standards: **ISO 14001**. In addition, we are the first company in the global porcelain industry whose **energy management** system is certified according to **ISO 50001**. Our dedication to energy efficient and resource friendly manufacturing is inherent to our company culture.

Reducing waste

For opening projects, Tafelstern can use bulk packaging to **cut down on waste and labor**. Operators can choose the amount of product they want in bulk and standard packaging.

custom decorations

An attractive pattern, a logo, or a fascinating texture can transform tableware into a personal business card that clearly differentiates the establishment from its competitors.

By collaborating closely with customers, Tafelstern develops personalized decor variations to meet the demands of respective interior design and gastronomic concepts.

make it yours

Standard decors can also be modified to match a company's colors or aesthetic.

lots of possibilities

With printed decor, decals produced with a screen printing technique are soaked in water, removed from the paper, and then placed on the item to be carefully flattened with a scraper.

With spray decor, liquified color pigment is applied with an airbrush, either manually or automatically.

Painted decor uses a paintbrush to apply colored pigments mixed with oil for a handmade touch. Other decor techniques include sandblasting, vacuum metalizing, and relief printing.

a market leader since 1853

Since 1853, WMF has been among the most important suppliers in the field of tableware and is a market leader with their wide range of products. Their success – then and now – is founded on traditional values such as **reliability** and **quality**, as well as **innovation** and **flexibility**.

More than 80 years ago, WMF was a **pioneer in using stainless steel** in the manufacturing of cutlery and appliances. From cutlery to tabletop and buffet, all WMF products are expressions of the company's passion for **table culture**. They are perfectly crafted implements that stimulate the senses, enhance taste experiences, and add more than a little ambience.

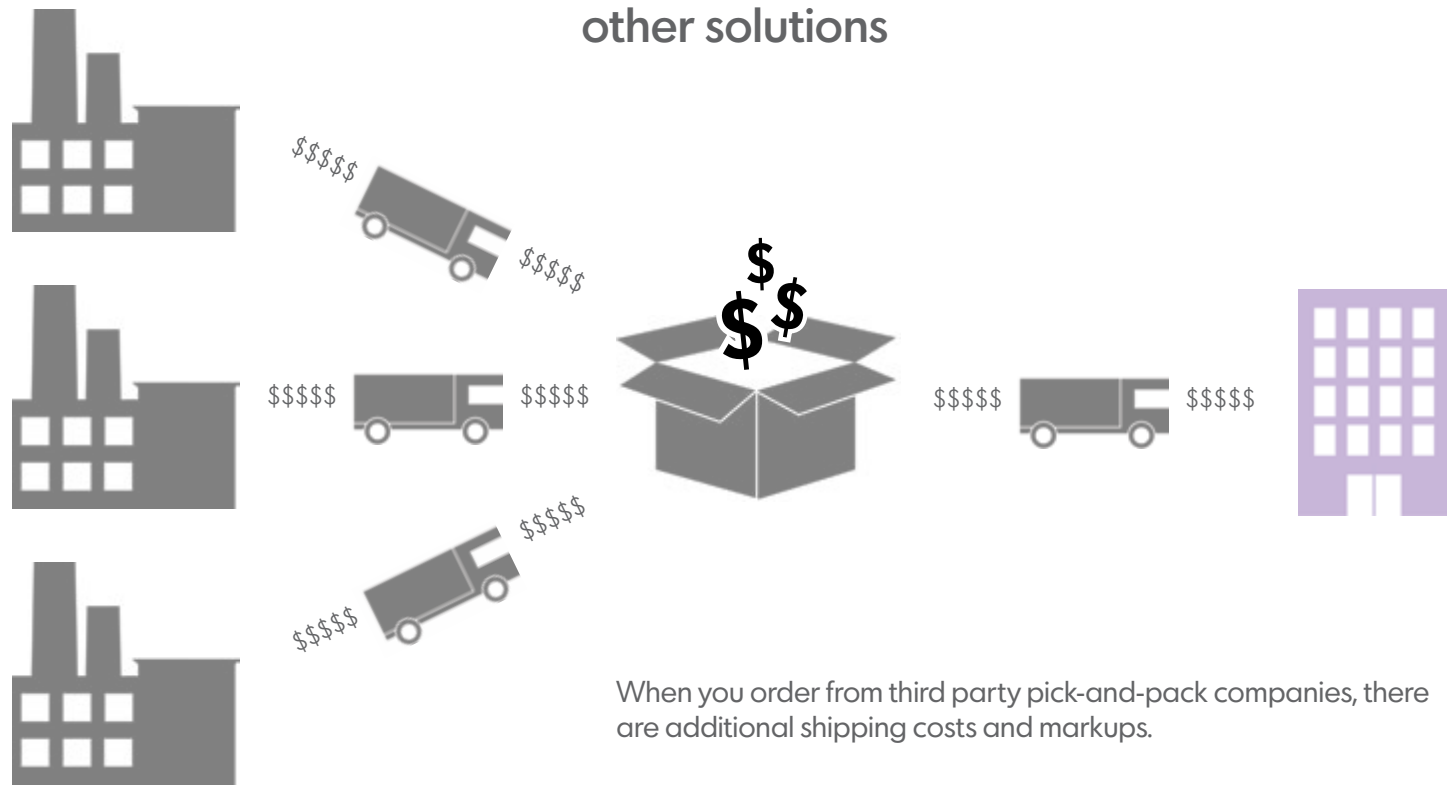

timeless design

WMF's products meet the highest standards of design, quality, and product use. From conception to finished product, the focus is on the material and workmanship. Additional services, such as engraving, stamping, application of special finishes, and refurbishment of serving dishes and cutlery, make WMF an invaluable partner in the world of hospitality.

noble china bone white

Noble China represents a new class in porcelain. The difference lies in the play between the subtle exclusive **Bonewhite** color and the extraordinarily intricate porcelain of the innovative new material Noble China. This revolutionary new development from Tafelstern lends the collections a remarkable delicacy. Our porcelain experts have succeeded in uniting a graceful appearance with a new standard of chip resistance.

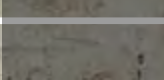

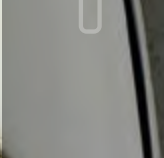

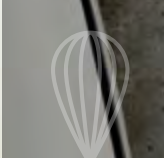

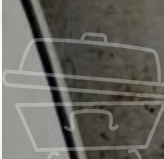

european white

Our products use only the **world's second hardest material after diamonds**. Its ability to withstand the rigors of catering makes it perfect for professional applications. To this end, we work exclusively with premium raw materials - kaolin, quartz, and feldspar in a very special mix - at factories that are equally first rate. Our manufacturing sites are some of **the world's most modern plants**, where premium grade porcelain is indeed **"Made in Germany."**

Noble China

The high firing temperature of 2550 °F gives Noble China its **extreme glaze hardness and durability**. At once delicate but robust, this collection is ideal for daily use in hotels and restaurants. With an extensive range of articles to meet all needs, it guarantees a winning presence on the international stage.

Our porcelain's hard glaze makes it **extremely resistant to metal marking, cuts, and abrasions**. The high quality materials, extremely high firing temperatures, and optimum design ensure a high chipping resistant china. The unsurpassed quality and incomparable look and feel of this porcelain makes it the sophisticated solution that our discriminating customers seek. Porcelain with a flair for being combined.

coffee tasting

for the **connoisseur** of fine craft coffee, with pieces designed for the perfect service and appreciation of **specialty coffees**

new

the quality of a coffee doesn't just derive from the origin of the beans or how they're roasted

it's the result of a **barista's passion** for coffee and the painstaking care taken to prepare and serve each cup

Coffee Tasting elevates the art of coffee service, enhancing the guest's exploration and **enjoyment of different styles**

a **broad range** of sizes provides ideal solutions for serving all sorts of coffee types and specialties

the **simplistic design** and subtly ribbed texture makes each piece a delight to see and hold

a **multipurpose** collection: cups and saucers can also be used as bowls for snacks or desserts

table culture at its best

Table culture is constantly in motion. It thrives in the feeling of the moment. For that perfect instant, when everything is exactly right. The **expertise** and **dependability** of WMF, along with its dedication to research, design, development and production, is rooted in the ever-changing world of table culture.

creating culinary experiences

It is of great importance to **inspire** your guests every day. An essential key to success is the laid table. It is the center of attention, for here is where you stage the menu for a **culinary experience**. Whether elegant, long-established, modern, or pure, WMF cutlery complements any concept.

Cutlery is more than a simple table utensil. It is the **visual** and **tactile** expression of culture and lifestyle. Since 1853 WMF has been creating flatware designed for your **individual style**, focusing on form-perfect functionality, precision, and lasting appearance. From the curves and elegance of various collections to the surface treatments that result in some of WMF's special finishes, a passion for tabletop is at the heart of WMF's design concepts.

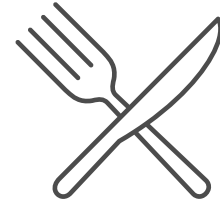

- Every piece fits well into your hand and has a **well balanced** weight
- The tines of the fork have been **finely sharpened** and are also **neatly finished** on the insides
- **The bowls are absolutely symmetrical**
- **All edges have been accurately finished**
- The knife blade **tapers evenly** from the bolster to the tip and from the back of the cutting edge
- The **scalloped edge or serration** - ensures a **high and lasting sharpness**: slices and cuts; does not tear.

Sample Kits Available **3 Piece Includes:** table fork, table knife, coffee spoon
5 Piece Includes: table fork, table knife, coffee spoon, dessert fork, dessert spoon

18/10

18/10 stainless steel will not tarnish, is **rustproof, acid-resistant, unbreakable**, easy to clean and therefore extremely **durable**. Since its inception, stainless steel has been considered a modern, **high quality** and durable material of **upscale dining** culture. Cutlery made from stainless steel has become the general standard.

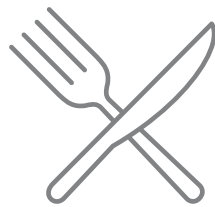

stonewash

Each piece is **unique**. The stone-washing method gives the pieces of cutlery an impressive vintage feel. After the mechanical stone-washing treatment, no piece of cutlery is identical to another. Each unique piece has its own characteristics, ensuring a **distinctive** look, especially when combined with rustic or antique porcelain and glassware.

silverplate

A **seamless** production process has been developed over the past 150 years: a layer of silver is inseparably bonded with robust 18/10 stainless steel in an **electrolytic** bath. The result is an **elegant** appearance with a soft sheen and high reflectivity.

pearl

The glass bead blasting creates matte **satin nuances**. Small glass balls act on the cutlery or other stainless steel products at high speed and great pressure, creating a **soft glow** that comes into its own when combined with **elegant** table settings.

pvd

Stylishly different – stand out from the crowd with this elegant and **vibrantly colorful** surface coating and give your cutlery a remarkable note. With **four** stylish, unusual colour versions of copper bronze, gold, anthracite and pale gold your cutlery adds a **new stylish touch** to any table.

WMF has a solution for every tabletop

The choice of table linen, porcelain, cutlery, glasses, and accessories are determined by the dishes to be served and how they are to be presented. Fine dining naturally imposes aesthetic and formal criteria different from that of a bistro. The wonderful thing about WMF is the **superbly high-quality** diversity of cutlery and table accessories. Everything is covered, from the **classics** right through to **modern** table culture. **Design** and **functionality** shine brightly in every product and enrich every table.

holloware features

- **Drawn spout**
- **Easy to clean**
- **Ergonomic handles** with resting points for thumbs
- **Hollow handle disperses temperatures**
- Lids designed to open **180 degrees** to fit in dishwasher racking system
- Design **directs pressure away** from hinge
- **Hard soldering** for joining handle, foot, or knob

Buffet to your own beat.

WMF Quadro. The new buffet system.

WMF Quadro offers your team all they need for an entirely unique buffet presentation. Each element matches the rest: frames, inserts, and top frames that are easy to set up and impress your guests. Different finishes, surfaces, and materials all form a harmonious whole from the highest quality materials. Quadro is deliberately understated with a distinct, minimalist, modular design for you to create your own incomparable composition.

No buffet is like another. Whether it's a hotel, a catering chain, or a restaurant, the modular Quadro Buffet allows for unique configurations that are tailored precisely to your workflow. From food preparation to presentation Quadro adapts to all tasks large and small, and even those you might not have thought of yet.

The inserts are made of white porcelain. 1 or 2.6 in. high. In a wood look, grey glass or satin glass. Bread basket insert 3.1 in high.

The top frames and consoles. Optional. In various sizes.

The ice pan. Optional. 2.2" or 4" high.

The adapter frame is made of metal. Optionally as LEDlight unit made of matte acrylic glass.

The frames are made of stainless steel. 3.1" or 5.1" high

Whether it's a breakfast, midday, dessert or evening buffet, WMF Quadro makes it particularly easy to set up. It takes just a few touches to get single modules and combinations ready for use and this can immediately be reproduced.

For more information, please contact your local representative.

all in one: flexible, intuitive, structured

You decide the beat and WMF Quadro will make it happen. All buffet elements comply with standardized GN formats, allowing for any configurations you dream of to fit seamlessly into your workflow.

The result: 100% control over the workflow with plenty of room for creativity that pieces together a beautiful, unique presentation.

chop, slice, mix stir. until everything is just right.

Front door closed, fridge open – make sure everything is ready. Unpack the ingredients and follow your nose. Stir, whisk and chop yourself into a Zen-like trance. Even stubborn vegetables or unruly sauces will fall under your spell. Marinade and season liberally – let pepper and spice mills be your master. Set everything out.
