

BauscherHepp

BauscherHepp

our vision

BauscherHepp distributes a comprehensive offering of commercial tabletop and buffet products. Our brands have a long history in the global market, making them an ideal match based on their expertise and European roots. BauscherHepp specializes in offering the highest quality products and providing excellent service.

More importantly, we bring people together. Whether it's for a meal, a celebration, or a corporate event; we give our clients the tools that help them provide exceptional experiences for their customers. Our attention to detail, dedication to quality, and commitment to a culture of excellence are all a part of our story.

porcelain made in germany. we are the manufacturer.

Weiden production – founded in 1881; this is now the largest and **most modern** porcelain manufacturing plant in Europe

Schönwald production – founded in 1879; recently, the Schönwald plant inaugurated two furnaces with the latest firing technology offering extremely high flexibility in the expansion of capacities in line with demand

Selb – decoration and logistics center

“Made in Germany” allows better control of pricing and future availability

unsurpassed quality without compromise.

Bauscher is a global brand for professional, international dining culture, with porcelain for the entire restaurant and catering segment as well as hotels, professional catering, and the hospital and care sector. Bauscher porcelain offers all the excellent properties of true hard porcelain.

Bauscher’s porcelain is fired at over 2550 °F, resulting in a hard glaze that:

- makes our porcelain **extremely resistant to metal marking, caustic solutions, and shocks**
- enables it to retain its luster while being **hygienically safe**
- protects decorations and color, which sink into the glaze and fuse with the porcelain, making them **permanently protected**

Even after the thousands of wash cycles, our porcelain will look as new as it did on the first day. We have the skill required to design porcelain that satisfies the demands of perfect catering tableware and completely fulfill the needs of our customers: **design, functionality, durability, stackability** and **breakage resistance**. Opting for our porcelain means putting our experience and quality to work for you.

innovation and sustainability.

We are socially responsible—today and for coming generations. Our high-quality porcelain is **made exclusively in Germany**. Bauscher has a long history of groundbreaking solutions for our customers. The Bauscher brothers were the inventors of hotel porcelain. Our B1 100 tableware was the first system with space-saving shapes, while Carat was the first relief-design tableware of its time. Today, Bauscher has developed the first intelligent tableware with its debut of Pabis. Bauscher will always strive to find the **answers of tomorrow today**.

For over 135 years, Bauscher has invested in Germany, in its employees, and the area’s top quality raw materials and sustainable technologies. Just as many of our collections are inspired by nature, we strive to be good stewards of our resources to ensure future inspiration.

We are socially responsible and continuously optimize all processes and follow the principle of environmentally sound operations:

- Porcelain is made of just **a few natural raw materials**, and has an outstanding environmental balance
- The extremely robust tableware is manufactured with **energy-efficient, resource conserving processes**
- New firing technologies **lower energy consumption** by a third and reduce CO2 emissions
- All ceramic components within the production waste are **completely recycled**

For sustainable success: Porcelain made in Germany

The sustainable success of our **environmental management** system has also been underscored by our certification according to the most strict international manufacturing standards: **ISO 14001**. In addition, we are the first company in the global porcelain industry whose **energy management** system is certified according to **ISO 50001**. Our dedication to energy efficient and resource friendly manufacturing is inherent to our company culture.

Reducing waste

For opening projects, Bauscher can use bulk packaging to **cut down on waste and labor**. Operators can choose the amount of product they want in bulk and standard packaging.

intelligent solutions for the future

BauscherHepp is a pioneer in the development of smarter solutions that streamline large-scale catering operations. Three technologies from Bauscher — PABIS, Scale, and Induction — are the smart plates of the future.

pabis

Bauscher's new Payment by Intelligent Solutions (PABIS) technology uses **radio frequency identification (RFID)** to completely **automate payments** at a cash register. During the production of the porcelain a transponder chip is glued to the underside of a specific style of plate, which corresponds to a certain menu item. The plate sends this information along with the price for the item to the register, where the guest receives a total to be paid in a cashless transaction. The chip is sealed and is not affected by moisture, and it can also withstand temperatures of up to 185° F.

Even better? Chips can also be placed in glasses, making the beverage process automated, too. PABIS also has the ability to help an operation with inventory and stocking. When one item sells more than another, products can be quickly replaced, reordered, or restocked, guaranteeing a high level of reliability.

Automating the payment process with PABIS can lower the cost of an operation by at least 50 percent while providing more convenience to guests and giving them a better overall experience through streamlined and efficient operations.

scale

Until now customers paid for food portioned out by themselves or kitchen staff, using only their eyes to estimate whether or not the serving size on the plate or bowl was correct. **The Bauscher Scale collection optimizes this process in front of and behind the counter through the use of taring.** This enables the weights of the servings to be recorded fairly and accurately on the cash register.

The way it works is easy: The tare weights of the various Bauscher porcelain articles are determined. These weights are stored in a program on the cash register. During the payment process, the cash register scale subtracts the weight of the plate from the total weight of the selected food portion to yield the accurate portion weight for charging with one-gram accuracy.

Investment in these precision technologies pays off quickly for the operator. With the Scale system, large-scale caterers gain more control over food usage, decrease food waste, and lower material consumption, all of which result in higher ROI.

induction

Induction has revolutionized the heating of food. Bauscher promptly recognized the potential of this technology and now offers mature porcelain solutions with laboratory-tested quality. To keep food hot or to reheat it evenly, the traditional material of porcelain is perfectly combined with high tech: a special, optimally adapted silver base coating that turns Bauscher articles into capable induction-ready tableware that is compatible with all of the usual systems in this field.

The homogeneously coated underside of the plate generates the ideal heat distribution. Through the application of a high-frequency alternating current to the copper coil in the induction cart/docking station, an alternating electro-magnetic field is generated between the coil carrier and the coated porcelain article. The heat thereby generated can be effectively used for heat retention, reheating, or the regeneration of foods.

Other innovations include:

- The ability of cold foods to be positioned on the same tray without insulating or other partitions, based on the desired heating degree.
- A special topcoat that protects the coating from wear and offers hygienic protection.
- When positioned correctly in the tray with the help of raised rings, Bauscher porcelain is held securely, even when transported over uneven surfaces.

make it your own with custom decor

design

Our designers develop decor ideas that are just right for you and your business.

pre-production

Based on the design, the appropriate inglze colors are selected and the decals produced.

development of decor

With great attention to detail, the design approved by you is developed further in our decor studio until ready for production.

decor production

Decals are carefully applied to each porcelain item and then fired in the decor kiln at inglaze temperatures.

implementation

The design is crafted to fit the desired items precisely, and then reproduced in our lithographic department.

shipping

After precise quality checks, the decorated porcelain reaches you on schedule--designed for you with dishwasher-safe, laboratory tested Bauscher decor quality

service is an art

For more than 150 years, Hepp has been known for “The Art of Service”, with a goal of combining tradition and modernity, the timeless and the contemporary.

The Hepp brand is one of the world’s leading names in refined tableware. As **the inventor of hotel silver**, Hepp is renowned for sophisticated product ranges and outstanding collaborative pieces with celebrated product designers. Since 1863, Hepp has made their name in the upmarket catering and hotel business, with form-perfect functionality, precision, and lasting appearance that is tried and testing in high-volume gastronomy and catering.

in the air, on land and at sea

Hepp products can be found in sophisticated hospitality locations in more than 90 countries around the globe. From top names in the world of catering to high class hotels worldwide, Hepp sets the standard for timeless elegance and unquestionable quality.

comprehensive solutions

Thanks to its reliable, long-lasting, and high-quality products, Hepp is one of the few large global brands to offer a **complete range of table and buffetware**. Design, functionality, long service life, and ensuring the availability of replacements are always the first priority. Additional services, such as engraving, stamping, application of special finishes, and refurbishment of serving dishes and cutlery, make Hepp an invaluable partner in the world of hospitality.

noble china bone white

Noble China represents a new class in porcelain. The difference lies in the play between the subtle exclusive **Bonewhite color** and the extraordinarily intricate porcelain of the innovative new material Noble China. This revolutionary new development from Bauscher lends a remarkable delicacy to the collections. Our porcelain experts have succeeded in uniting a **graceful appearance** with a new standard of chip resistance.

Noble China

The high firing temperature of 2550°F gives Noble China its **extreme glaze hardness and durability**. At once delicate but robust, this collection is ideal for daily use in hotels and restaurants. With an extensive range of articles to meet all needs, it guarantees a winning presence on the international stage.

european white

Our products use only the world's **second hardest material after diamonds**. Its ability to withstand the rigors of catering makes it perfect for professional applications. To this end, we work exclusively with premium raw materials - kaolin, quartz, and feldspar in a very special mix - at factories that are equally first rate. Our manufacturing sites are some of **the world's most modern plants**, where premium grade porcelain is indeed **"Made in Germany."**

Our porcelain's hard glaze makes it extremely **resistant to metal marking, cuts, and abrasions**. The high quality materials, extremely high firing temperatures, and optimum design ensure a high chipping resistant china. The unsurpassed quality and incomparable look and feel of this porcelain makes it the sophisticated solution that our discriminating customers seek. Porcelain with a flair for being combined.

scale

Until now, customers paid for food portioned out by themselves or kitchen staff, using only their eyes to estimate whether or not the serving size on the plate or bowl was correct. The Bauscher Scale collection optimizes this process in front of and behind the counter through the use of taring. This enables the weight of the servings to be recorded fairly and accurately on the cash register.

The way it works is easy: the tare weights of the various Bauscher porcelain articles are determined. These weights are stored in a program on the cash register. During the payment process, the cash register scale subtracts the weight of the plate from the total weight of the selected food portion to yield the accurate portion weight for charging with one-gram accuracy.

Investment in these precision technologies pays off quickly for the operator. With the Scale system, large-scale caterers gain more control over food usage, decrease food waste, and lower material consumption, all of which result in higher ROI.

In the scale 1 collection, all units of an article have the same weight. For example, all 9.8" plates weigh 700 grams (+/- 5 g) and all 4.7" bowls weigh 225 grams (+/- 5 g).

Scale 1 offers two sets (a and b) each with four tared porcelain items. They can be used in diverse ways in a variety of large-scale catering food concepts.

Weight recording is even easier with scale 2, because all articles have the same weight, which is stored on the cash register. A flat plate weighs the same as a deep plate or a bowl. Here, too, the accuracy is within 5 g. Mix-ups are practically impossible, and each article can be used for any food item.

For this alternative, scale 2 has a small but multifunctional repertoire of three articles. With these select basic elements, different starters or appetizers, main course, and desserts can be served extremely pragmatically but with variety.

scale 1 (set a)

flat plate with rim
929651 10.1" [Ⓜ]
700 grams +/- 5 g

deep plate with rim balance
929652 9.4" [Ⓜ]
606 grams +/- 5 g

dish
909653 5.9" [Ⓜ]
245 grams +/- 5 g

dish
609651 9.4" [Ⓜ]
550 grams +/- 5 g

scale 1 (set b)

flat plate with rim
199651 9.5" [Ⓜ]
695 grams +/- 5 g

deep plate with rim balance
909652 9.0" [Ⓜ]
565 grams +/- 5 g

dish
629651 4.7" [Ⓜ]
225 grams +/- 5 g

dish
219651 6.7" [Ⓜ]
575 grams +/- 5 g

scale 2

flat plate with rim
199651 9.4" [Ⓜ]
575 grams +/- 5 g

deep plate with rim balance
199652 9.2" [Ⓜ]
575 grams +/- 5 g

stew bowl
199653 7.6" 37.2 oz [Ⓜ]
575 grams +/- 5 g

Both of the Scale collections have appealing, functional designs that allow for fast food dispensing:

- Generous bowl proportions for easy filling
- Functional plate design for secure stack gripping
- Clear distinction between rim and well to prevent contact with the food
- All articles are space-saving, safe, and tightly-stacking

table culture at its best

Table culture is constantly in motion. It thrives in the feeling of the moment. For that perfect instant, when everything is exactly right. The expertise and dependability of Hepp, along with its dedication to research, design, development and production, is rooted in the ever-changing world of table culture.

inventor & innovator

The **oldest specialized factory for cutlery and service equipment** for the hotel industry was founded in Germany by the Hepp brothers in 1863. Since then, Hepp has succeeded in not only developing hotel silver that is strong enough to withstand the gastronomy industry, but also in partnering with designers to create a finished product that is as beautiful as it is functional.

Cutlery is more than a simple table utensil. It is the visual and tactile expression of culture and lifestyle. Which is why Hepp offers a diverse product range with a wide choice of design and styles. From the curves and elegance of different flatware collections to the surface treatments that result in some of Hepp's special finishes, innovation is at the heart of Hepp's design concepts.

- Every piece fits well into your hand and has a well **balanced weight**
- The tines of the fork have been **finely sharpened** and are also **neatly finished** on the insides
- The bowls are absolutely **symmetrical**
- All edges have been **accurately finished**
- The knife blade **tapers evenly** from the bolster to the tip and from the back of the cutting edge
- The scalloped edge or serration - ensures a high and lasting sharpness: **slices and cuts; does not tear**

Sample Kits Available **3 Piece Includes:** table fork, table knife, coffee spoon
5 Piece Includes: table fork, table knife, coffee spoon, dessert fork, dessert spoon

cutlery

18/10

18/10 stainless steel will not tarnish, is **rustproof, acid-resistant, unbreakable**, easy to clean and therefore extremely **durable**. Since its inception, stainless steel has been considered a modern, **high quality** and durable material of **upscale dining** culture. Cutlery made from stainless steel has become the general standard.

stonewash

Each piece is **unique**. The stone-washing method gives the pieces of cutlery an impressive vintage feel. After the mechanical stone-washing treatment, no piece of cutlery is identical to another. Each unique piece has its own characteristics, ensuring a **distinctive** look, especially when combined with rustic or antique porcelain and glassware.

silverplate

Hepp is considered to be the **inventor** of hotel silver. A **seamless** production process has been developed over the past 150 years: a layer of silver is inseparably bonded with robust 18/10 stainless steel in an **electrolytic** bath. The result is an **elegant** appearance with a soft sheen and high reflectivity.

pearl

The glass bead blasting creates matte **satin nuances**. Small glass balls act on the cutlery or other stainless steel products at high speed and great pressure, creating a **soft glow** that comes into its own when combined with **elegant** table settings.

pvd

Stylishly different – stand out from the crowd with this elegant and **vibrantly colorful** surface coating and give your cutlery a remarkable note. With **four** stylish, unusual colour versions of copper bronze, gold, anthracite and pale gold your cutlery adds a **new stylish touch** to any table.

turn serving into a 5-star experience

With their incomparable quality, Hepp articles can be found in the top international catering companies. Our impeccably designed hollowware makes classical menus and banquets an unforgettable experience. A love of details give our products an unmistakable character that turns every culinary treat into a work of art.

make a statement

Hepp tableware pieces have been developed with fine creativity. In addition to a complete range of basic pieces for bars, buffets, and table settings Hepp also offers accessories for the requirements of a large table. The most striking stylistic features are the designs of the handles, knobs, and feet. Consistent lines and functional details emphasize exclusive and modern elegance in each collection.

hollowware features

- **Drawn spout**
- **Easy to clean**
- **Ergonomic handles** with resting points for thumbs
- **Hollow handle** disperses temperatures
- **Lids designed to open 180 degrees** to fit in dishwasher racking system
- Design directs **pressure away from hinge**
- **Hard soldering** for joining handle, foot, or knob

Nothing beats a hot, aromatic cup of coffee or tea with that freshly-brewed taste. With all sorts of designs ranging from traditional stainless steel to brightly-colored plastic, Emsa offers a truly eye-catching addition to any laid table. The insulating action of these vacuum jugs keeps coffee, tea & co. tasting delicious and (most importantly) hot for up to twelve hours. For warm days in the sun, Emsa vacuum jugs keep refreshing beverages cold for up to 24 hours, making this a year round must have for your kitchen.

refined functionality

Whether it's a country club wedding or a convention center awards banquet, one of the most important takeaways guests will have is the food. From the salad to the spoons, delivering quality and efficiency takes planning and execution.

Creating the perfect setting for your buffet is easy with our wide selection of buffet stations. Born out of a passion for cooking and design, our banquet furniture combines the very best of both design and functionality. Our modular system allows for an endless number of configurations that bring a stylish and elegant look to any setting. Our wide range of chafing dishes and cookware, along with meticulously crafted holloware come together to complete your look.

Of course, it's all about the details. With a varied assortment of serving utensils, cutlery, and table accessories, we can help you execute your ideal food service vision, whether it's farm to table, country club chic, or anything in between.

chafing dishes

- Roll-top lid runs **quietly**, and are **easy to open with just one hand**
- **Handles are insulated**
- **Condensation return** is built into the edge of the lid
- **Rubber foot** used so units do not slide or scratch
- Lid of GN 1/1 is fitted with two **high class disk brakes** that can be set up and adjusted easily
- Round chafing dish includes a special flex clip allowing the lid to be opened freely when using electric heating

For more details on induction and traditional chafing dishes, see following pages

TAKING CENTER STAGE WITH STYLE

When combined with frames M and S, frame L creates a square (the same applies to frame M in combination with S and XS), thereby re-establishing symmetry.

As varied as your lunch buffet.

In temptation's way ... A buffet presented with SEQUENCE catches the eye and stimulates the palate. The striking shapes of the intelligent buffet concept and the multitude of ways in which the pieces can be arranged set entirely new benchmarks in food presentation. The innovative combination of trapezoid modules will channel a great sense of energy through your dining and reception rooms. As you would expect, all the individual items in the range are coordinated, which gives your staff great creative freedom when designing and combining table settings. The SEQUENCE collection will make your buffets and dinners an unforgettable experience!

breadbasket with fabric insert available in sizes S,M,L can be hung in the respective 2.8" or 3.9" frames.

Striking pieces for your evening buffet.

The SEQUENCE buffet concept is more than just a collection of its 40 or so parts. The selection of striking pieces in the range, with their fully modular design and exquisite materials, make it one of a kind. SEQUENCE will ensure that your dishes are presented in a unique and elegant way. Whether you're serving breakfast, lunch, afternoon tea or an evening buffet – the SEQUENCE collection is perfect for everyday dining and will never fail to impress. Innovative, versatile, unique.

melamine platforms available in two sizes to show off your culinary delights.

sequence

Sequence buffet kits make it easy to set up a style and functional presentation – morning, noon, and night.

Silit

chop, slice, mix stir. until everything is just right.

Front door closed, fridge open – make sure everything is ready. Unpack the ingredients and follow your nose. Stir, whisk and chop yourself into a Zen-like trance. Even stubborn vegetables or unruly sauces will fall under your spell. Marinade and season liberally – let pepper and spice mills be your master. Set everything out.

don't stop with dinner.

Let your imagination travel to dessert. Wherever your vision takes you, make sure you have the right bakeware to handle the job. Our wide selection helps you craft cupcakes, cakes, and pies that are not only delicious, but beautiful. With non-stick properties, heavy-duty materials, and product guarantees, you can expect to use our bakeware for years to come.

it's all in the details.

Add the final details and touches to your masterpiece with our decorating products. Spatulas, icing sets, cake servers – we have everything you need to make your finished product shine.
