▶ The universal shape allows for a **perfect tasting experience** with any variety of wine.

▶ A titanium reinforced coating is applied directly to the stems of the MAGNIFICO collection and is a permanent, **anti-abrasion treatment** that drastically increases resistance to breakage.

◀ The wide bowl narrows at the mouth to both **enhance and preserve the aroma** of the wine.

◀ The accentuated epicure creates a **high reflection of light** which adds to and **enhances the color** of the wine. It also helps to **expand the aroma** of the wine upward.

▶ The emphasized epicure in the flute creates a refined **and persistent flow of bubbles**.
