"High Definition" Glass

Brilliance and transparency guaranteed up to 3000 industrial washings

Lead free = 100% recyclable + microwave safe

Pressed glass, safe and resistant

- The high certified chemical stability of our glass makes it resistant to both hydrolytic attack and attack from detergents.¹
- "Extra White" glass, thanks to the almost complete absence of iron, as proved by a light transmission at 92%.²
- Extremely high brilliance, with a refractive index of 1,51.³

- Unlike crystal, our glass **contains no lead or cadmium.**
- Hd Glass can be used in complete safety in restaurants and public businesses and fully respects REACH regulation no. 1907/2006/EC.

- **It does not shatter** into tiny pieces or explode when broken, so it does not represent a risk during use: in tests, the base breaks away from the rest of the glass, therefore limiting the dispersion of glass chips.

- Pieces highlighted by this logo indicates item is made from "high definition" glass
- Pieces highlighted by this logo indicates item is made for stacking
- Indicates the amount in a case pack

The Right Glass for Every Occasion

Bowls: It's Your Choice

Shot Glass

2.7 oz

Relax and savour quality spirits or liqueurs alone or with friends, or ideal for serving delicious finger food.

Espresso Glass

3.0 oz

A glass designed for sipping coffee without burning yourself, thanks to the structure of the bottom. Also perfect for presenting mousses and desserts.

Small Tumbler

from 7.4 oz to 8.1 oz

The perfect size for all kinds of drinks, ideal for those who prefer a strong and **comfortable** hold, thanks to its reduced size.

Individual bowl

from 2.8" to 3.5"

Perfect for all types of dips.

Individual bowl

from 3.9" to 4.7"

Elegant for food presentations, including fashionable finger food.

Individual bowl

from 5.1" to 5.9"

For fruit salad or ice-cream.

Individual bowl

from 6.3" to 7.1"

Originality in the presentation of soups in place of the traditional deep dish, as well as for single servings of salad or side dishes.

Of Tumbler

from 8.5 oz to 10.1 oz

To enjoy a drink, the best wines or elegant desserts.

Dof Tumbler

from 10.1 oz to 13.5 oz

Not just for water: this tumbler is perfect for enjoying an after-dinner drink on the rocks.

Long Drink

from 9.5 oz to 10.1 oz

Juices, smoothies, cocktails, the glass that gives scope to imagination.

Highball

from 13.5 oz to 16.9 oz

Ideal for an ice-cold drink on a hot summer's day or perhaps a mojito with friends in the evening.

Bowl

from 7.5" to 8.7"

Ideal for serving fresh fruit and salads, as for desserts.

Bowl

from 9.1" to 10.2"

As a salad bowl or bread plate.

Bowl

from 10.6" to 11.8"

Pasta bowl or a fruit bowl, the practical choice for a table with class.

Tumblers

A complete range of tumblers from A to Z, ideal for all requirements for the bar or table. A heavy base for increased stability and importance. Either smooth or enhanced by modern and elegant embossing.

Luce and Prisma have been studied for the bar. They are characterized by a design placed on the external base of the tumbler, in such a way as not to disturb the mixing of cocktails with internal decoration (which would tend to create friction). A discrete internal ring aids stacking.

Mix & Co. 

VIDIVI has always had tumblers in its DNA. A tumbler that is resistant, striking and stylish. Mix & Co has been created to meet the needs of bartenders and highlights the technical characteristics and the quality of the glass.

Mix & Co. combines ergonomics and vintage design: a heavy base for increased stability, and external decoration both for improved hold and reduced friction during mixing. This collection is composed of 4 tumblers and the essential mixing glass, a tumbler for the preparation of several cocktails at once, mixed and cooled with ice as per the stir & strain technique.

1
The external design, as well as being aesthetically pleasing, has the practical function of providing a stronger hold during use.

2
The lip has been specially studied to facilitate the pouring of the liquid according to the bartending's techniques, to avoid spilling.

3
Internally, the smooth walls and the strong convexity of the bottom help to avoid friction during mixing with the stirrer.

4
The heavy base maximises stability.

5 Tips for the Proper Use of our Glassware

1

Our tumblers are tested to resist up to 3000 industrial dishwasher cycles: brilliance and transparency are guaranteed for 10 years, with correct maintenance.

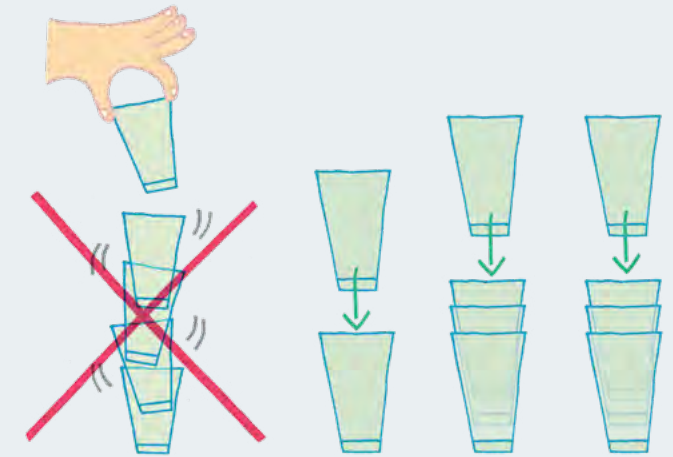

2

Our glass resists a thermal shock of 158° F. Avoid using ice in tumblers immediately after removing from the dishwasher, wait five minutes for them to cool. Use with hot beverages presents no risks.

3

All VIDIVI tumblers marked '2.4.6' are stackable and guaranteed for this function. Please do not stack tumblers that are not expressly marked 2.4.6, to avoid breakage.

4

To avoid chipping, do not pick up tumblers with your fingers inside the rim.

5

Glass is resistant but it breaks! Please remember to buy 20-25% more than you need, to be sure not to run out.
