

April 15 - June 15, 2019

3 PORCELAIN INSERTS FOR THE PRICE OF 1

Whether for a wedding, a conference, or at a country club, how you serve the food will be remembered by the guests.

Do it in style with WMF's Hot & Fresh chafers

- **transparent lids** allow guests to pick and choose without lifting lids; improving flow, maintaining temperature, and preserving freshness throughout the buffet line
- unlike inferior chafers, **condensation returns** are built into the edge of the lids, preventing drips or pooling
- roll-top lids open and **close quietly**, and open easily with just one hand
- stunning, brightly polished steel accents the beauty and functionality of the porcelain inserts
- **handles are insulated**, so staff and guests can open and close worry free
- works with various types of heat: **induction, canned fuel, or electric elements**
- stands available for **all sizes and shapes**

* refer to pages 213-217 in Design Guide 2 for all options
