

CRITICAL INFORMATION SUMMARY

INFORMATION ABOUT THE SERVICE

SERVICE DESCRIPTION and KEY INFORMATION

BusinessCom SHDSL Ethernet Broadband provides symmetrical high speed internet access over existing copper infrastructure, and comes with a static IP address and a monthly included data allowance. There are two types of services available: EFM (Ethernet First Mile) delivered via the TPG network and MBE (Mid Band Ethernet) delivered via the AAPT network. Both types of services require the necessary available copper wiring in order to be connected.

HARDWARE REQUIREMENTS

We will supply and install a Network Termination Unit (NTU) at your premises. This will provide an Ethernet Port for connecting to your Router. The monthly access fee does not include the cost of the router. Please call our Customer Service Team for more information.

SERVICE AVAILABILITY

The service may not be available in all areas and some premises due to technical or commercial reasons. Availability depends on a number of factors including whether the necessary equipment is available at the relevant exchange, the length of the cable to the nearest exchange, and the quality of the existing copper pairs that the service runs over. You need available copper lines in order to connect the service, and the lines must not be in use as a PSTN telephone service. Your address must be pre-qualified before a formal quotation can be provided. To check availability please [CLICK HERE](#) or call us on **1300 000 300**.

IMPORTANT CONDITIONS REGARDING SPEED

Actual speeds you receive are dependant upon a number of factors such as distance from the exchange, the network connectivity to the exchange, your equipment and internal wiring. Devices connected by WiFi may experience slower speeds than those connected by Ethernet cable. EFM is a best effort service with speeds up to 10Mb.

MINIMUM TERM

Minimum term is 36 months for EFM and 24 months for MBE.

CONNECTION CHARGES

The service includes standard installation. Non-standard installation and installation outside of business hours will incur an additional cost. A single static IP address is included in the monthly access fee. Additional IP addresses may be available at an additional cost.
