

210A - Autoline

- Orbital welding autoline, PFC compatible 110V -230V, 50/60hz, iMax =25A (220V), 30A(110V)
- Integrated cooler: 1400 W cooling capacity with 1L/min
- Cooling safety system: flow rate, pressure
- Max. current **210 A**
- Power factor: 160 A, 100%
- **Assistance for programs creation : welding passes presentation with autoComputing multi-passes**
- Supplied with a memory card with 200 programs, 20 levels each

5.7" colour touch screen remote control. Secure, multi-lingual access

Easy-to-use touch screen features parameter calculation

Safe cooling to protect heads (flow rate, level, pressure)
