

December 2018

Welcome to the SwiftStack Monthly Newsletter!

Hello,

'Tis the season to be grateful for a prosperous year. We wish all of you Happy Holidays and we thank all of our customers and partners for helping to make SwiftStack the leader in Multi-Cloud Data Storage and Management.

Respectfully,

The SwiftStack Team

Product

SwiftStack Media Storage

SwiftStack is modern, scalable, and proven software-defined object storage used for data management across the media industry in active and long-term archives, multi-region collaboration and DR, multi-cloud bursting, and CDN origin. With massive throughput performance, a cloud-native architecture, true hardware flexibility, and award-winning support, SwiftStack is enabling optimizations in production and post-production workflows around the world.
