“BREMMAR

Fuel everyday decisions with data-driven insights

Data-driven decision making requires appropriate and approachable business intelligence (BI) tools. Whether you want to optimize machines or transform your customers' interactions with your website, Microsoft Power BI can help empower users throughout your organization with self-service insights in a natural and accessible way that fuels action.

Create powerful reports with Power BI desktop

- Easy report authoring
- Custom visualisation
- R integration

Connect to all data around you

- Connect to data in the cloud and on-premises
- Shape, transform, and clean data for analysis
- Join and model data from multiple sources/types
- Extend with advanced analytics technologies like R

Powerful self-service analysis

- Power Bi Desktop - Visual drag-and-drop data exploration and interactive reporting
- Excel - Ad-hoc analysis for blending structured and unstructured data
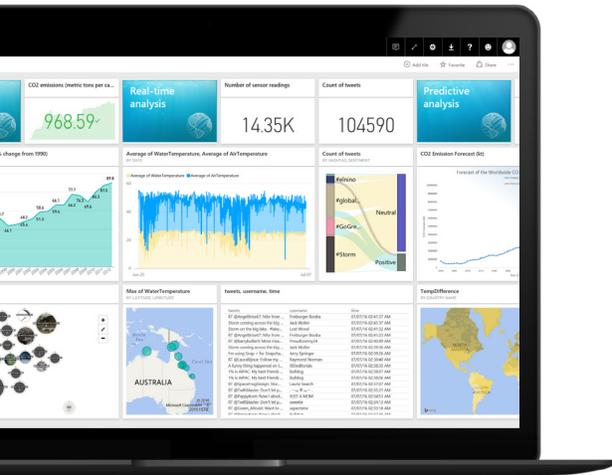

Power BI: experience your data
Any data, any way, anywhere

Cloud data

On-premises data
