Insite360™ Encore

Cloud connectivity comes to the forecourt with exceptional remote access, control, and fuel-dispenser visibility. With enhanced security features, customizable alerts, and remote-downloadable software upgrades, Insite360 provides maximum efficiency and capability with potential cost savings.

- > **Remote Maintenance.** In a world where time is money, dispenser downtime is lost revenue. Through Insite360 Encore, owners can save on repair costs and minimize downtime by resolving numerous issues remotely without waiting for a technician to perform onsite maintenance.
- > **Asset Management.** Manually keeping up with records to stay PCI compliant can be tedious. However, with Insite360 Encore, users can automate secure asset information and change history reporting.
- > **Performance Monitoring.** Having more visibility of your gas station can prove valuable in predicting potential issues. By analyzing your dispenser flow rates and other equipment performance metrics, Insite360 Encore will help you keep up to date on your forecourt's productivity and health.
- > **Security.** Rest easy with real-time fraud alerts and the ability to immediately capture tamper attempts. With more control over your dispenser's security actions, your site(s) will have reduced risk of unauthorized physical access.

With Insite360 Encore, you can easily conduct tasks such as:

- > Remotely resolve many common issues in minutes
- > Detect patterns of potential maintenance by analyzing flow rates and other dispenser metrics
- > Access to your store's data and reports remotely
- > Receive real-time notifications on security breaches
- > Remotely update software to bring new features like EMV and encryption to your network without site visits.

WHAT HARDWARE DO I NEED FOR INSITE360 ENCORE?

Option 1

DCM 2.1 or higher + **BRCM 1** + **DCM1**

Option 2

DCM 2.1 or higher + **BRCM 2** or higher

Option 3

DCM 2.1 or higher + **ETHERNET**
