PET GAZEBO & KENNELS

A

ADVANTEK

THE ORIGINAL PET GAZEBO

THE ORIGINAL PET GAZEBO WAS DESIGNED BY PET OWNERS TO BE THE MOST VERSATILE KENNEL POSSIBLE. DESIGNED TO BE BOTH PORTABLE AND SECURE, THE PET GAZEBO CAN BE SET UP AND TAKEN DOWN IN MERE MINUTES.

ALL THREE SIZES OF THE PET GAZEBO COME WITH A REVERSIBLE COVER; A WHITE SIDE FOR REFLECTING SUNLIGHT, AND A BROWN SIDE FOR ABSORBING HEAT; DURABLE NYLON PANEL CONNECTORS THAT ARE DESIGNED TO WITHSTAND THE RIGORS OF BEING ASSEMBLED AND DISASSEMBLED MANY TIMES, YET PLIABLE ENOUGH FOR A CONTINUOUSLY SNUG FIT AND A LATCHING WINDOW PANEL FOR EASY ACCESS FOR FOOD AND WATER REFILLING.

THE SCIENTIFIC MARVEL THAT IS ADVANTEK'S DOUBLE POWDER COAT

The ADVANTEK Double Powder coat system is the most effective way to treat metals; items are much more resistant to

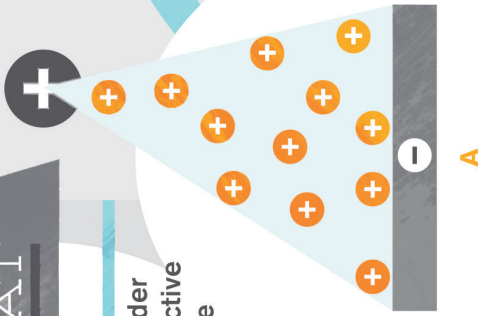

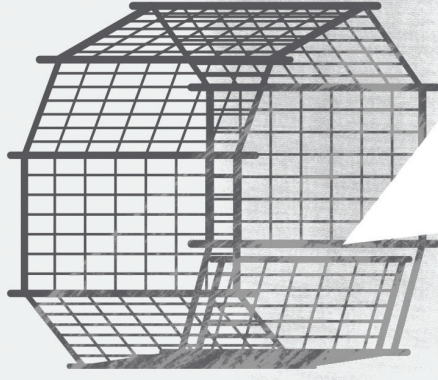

- chipping,
 - 🔥 rust,
 - ✖ harsh chemicals,
 - ☀ fading,
 - & general wear
- than other finishes.

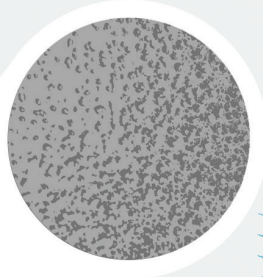

Powder coatings emit negligible amounts of volatile organic compounds (VOC) which are found in the liquid carrier and binding agents of wet paint and therefore have a much more positive impact on the environment.

ADVANTEK products are assembled and then powder coated to ensure all welds and other parts potentially exposed to the elements will be covered.

The Double Powder coat is applied by electrostatically charging the metal. This attracts the powder coating, which is sprayed at the charged metal.^A The charged powder particles adhere to the electrically grounded surfaces^B until the powder is heated and fused into a smooth coating in the curing oven^C and then the process is repeated with the second coat.^D

The double powder coat process is environmentally friendly and incredibly efficient. More than

95% of the overspray is easily collected and reused nearly eradicating pollution and waste.

ADVANTEK's Double Powder coat system not only makes for a very attractive finish on our dog kennels, catch and release traps, and small animal cages, but it also makes for a safer working environment due to the lack of fumes and harsh irritants in wet paint.
