NEW Applaws dog layers - one great taste on top of another...

Dogs **love** the great flavors of Applaws and our NEW dog layers offer them a delicious treat that looks as awesome as it tastes. A layer of succulent chicken breast meat or tasty tuna fillet is topped with a range of exciting garnishes and then suspended in a soft natural gelée.

The carrageenan that we use in Applaws is human grade rather than pet food grade. We choose to use a higher grade of ingredient because we don't believe in compromise.

Applaws Layers for dogs are available in a 100g single serve Tuna with Shrimp, Tuna with Anchovy, Chicken with Lamb, Chicken with Vegetables and Chicken with Pumpkin.
