

YOUR TRUSTED SOURCE FOR HEMP INFUSED, ORGANIC PET PRODUCTS

Company Ethics and Ideals:

Our mission is to be the trusted source for Organic, Hemp Infused Pet products. As a vertically integrated Hemp Company, we stand behind the quality and integrity of our products, from seed to sale, 100%. We only use the highest quality, human-grade ingredients for our Pet products, and never formulate with anything that we would not consume ourselves. In addition to being advocates for animal rights, we donate product to Animal Rescues and Sanctuaries, as we believe Hemp can be especially beneficial for healing mental and physical trauma and can also a beneficial compliment for use during training and behavioral work. We support and advocate for sustainable and Organic farming practices as well as bringing awareness to the current and future landscape of Hemp. We are active advocates for Hemp as alternative medicine, and our work in the industry and encouragement of consumers to educate themselves is directly tied to moving the industry in a positive direction. We believe that all people and animals have the right to heal themselves naturally and should have access to this plant and ALL other beneficial plants in order to be able to support their health and well-being for generations to come.

What Sets Us Apart?

Quality of Our Products

Made with top quality, **Certified Organic** carrier oils and Organically-grown ingredients, all sourced responsibly and sustainably. Our carrier oils are extremely fresh and nutritious.

All 100% Human-grade!

Made with our own ***Full-spectrum** Hemp extract which is derived from our own **Organically-grown Colorado Hemp**.

Gluten-free, GMO-free, Pesticide-free, Cruelty-free and Vegan. (No fillers, flavors, synthetic or unnecessary additives.)

Small batched to ensure freshness and consistency, all batches are then **3rd party tested for purity, potency and safety.**

Formulated and Made by Us! Under **CGMPs** (Current Good Manufacturing Practices) for **Human Dietary Supplements** (which greatly surpass pet food regulations to meet our own quality standards).

3rd Party Tested! All **incoming ingredients** are tested for necessary **purity and safety**, to ensure they are free of contaminants (microbiological, heavy metals, pesticides, residual solvents, etc.) before used in production.

Our Hemp Extract

Is Derived from our own **Strain Specific, Organically-grown Colorado Hemp**, grown at our own **Grow facilities (greenhouses).**

Is ***Full-spectrum**

***All of the active compounds** present (i.e. cannabinoids, terpenoids, etc.), **interact synergistically** in what is referred to as the **entourage effect** - thus increasing the efficacy of the oil and its health benefits.

Is **3rd Party Tested and 100% Free of: Pesticides, Residual Solvents, Heavy Metals, Microbial Content.**

Is Derived from a **Strain Specific** cultivar that is chosen for its **Terpenoid and cannabinoid profile** - we know this specific strain very well and have farmed it and formulated with it for over 3 years now. This ensures continued consistency in our finished products.

Contains **CBD, CBG, CBC, CBD-V**, other beneficial cannabinoids, and a broad spectrum of terpenoids.

Is **NEVER Imported**

Our Farms

 **We grow our own Hemp!** We have our own grow facilities, both managed by us and both located in the front range area, in the vicinity of Loveland, Colorado. Both are solely dedicated to growing Hemp for the HempMy Pet product line.

 Our small farm is where we dedicate our grow to breeding, seed production and other R & D projects. And our other larger farm is where we currently have 3 greenhouses, dedicated to year-round production of our strain-specific genetics that we use in our own HempMy Pet finished products.

 Both of our farms are registered with the Colorado Department of Agriculture (CDA).

 Not only do we follow Organic farming practices, we do NOT use ANY pesticides, herbicides or insecticides. Even though approved products are able to be used in Organic farming, we do not use anything that would potentially leave any residuals behind on or in the plant, which could then be present in the concentrated extract.

We do NOT Do the Following:

1. We DO NOT Use imported Hemp flower and/or Hemp extract from Europe, China, etc.
2. We Do NOT Use "CBD Isolate", as it is void of beneficial Terpenes, other Cannabinoids and phytonutrients...research has also shown that isolate has little or even no long term health benefits when compared to Full-spectrum oils, which is why we use our own Full-spectrum Extract and believe in it's benefits wholeheartedly.
3. We Do NOT use any fillers, flavors, artificial or synthetic ingredients.
4. We Do NOT dilute our formulas with cheap, low quality oils, nor do we use them as carrier oils.
5. We Do NOT Use any animal derived ingredients (with the exceptions of our Pumpkin Harvest Biscuits that contain eggs).
6. We Do NOT Source ANY ingredients from China (this includes Hemp Seed oil that is grown in China, sent to Canada and able to be called a product of Canada, which is a deceitful practice that suppliers engage in).
7. We DO NOT use pesticides, herbicides, or insecticides on any of our hemp plants.

Our Background

 We are growers, organic farmers, extractors, herbalists, animal lovers and protectors, healers, We believe in herbal medicine, and believe that people have the right to heal themselves and their animal companions, and be able to educate themselves on how to do so. Our mission is to help get Hemp to people and their Pets, and not to make money by taking advantage of people in a market full of sub-par products.

 Both founders of HM Health / HempMy Pet were responsible for the certification of one of the first USDA certified organic hemp farms in the US back in 2015 in Colorado.

Our Founders (currently the CEO and COO) have collectively been in the Cannabis and Dietary Supplement Industry for more than 30 years collectively. Their backgrounds in large scale cannabis growing and production and quality assurance in the dietary supplement space come together to make the core of our company and products. They are skilled in growing, extraction, formulation and production, and everything in between. Quality, consistency and safety is their utmost concern, and when it comes to Hemp, they are experienced and highly knowledgeable about every aspect from seed to sale.
